

SURVEY NOW IN PROGRESS FOR IMPORTANT RAILROAD

Electric Line From Pittsburg to Georgetown and Thence to Cleveland.

ROUTE FULLY MAPPED OUT

On the South Side of the Ohio and Will Be Continued Up Little Beaver.

SHORTER BY TWELVE MILES

Than Any Route Now In Existence Between Pittsburg and This City—The Surveying Corps to Move to the Ohio Side by Monday.

From the evidence at hand it is plain that in a few years Pittsburg will be at least 12 miles nearer East Liverpool than it is at present. This statement is easily verified, if one will take a trip to Georgetown, see and ask the many surveyors that are working in that vicinity the object of the work that they have been doing for the past two months.

On a level grass spot, two miles south of Georgetown on Big Mill creek is the camp of a corps of surveyors, twelve in number, occupying four tents, with an eating tent, three negro waiters, a cook, wagonman and helper, two large wagons, and as many horses. These men, under direction of Surveyor Barnes, and another gentleman named Morrissey, have been working for the past two months on the preliminary survey for an electric railway from Pittsburg to Cleveland, and by tomorrow they will complete their work on the south side of the river.

Their camp will then be moved to the Ohio side and the survey for a road up Beaver creek will be commenced, and it is said by those who are in position to know, that the surveyors have at least 30 days' more work ahead of them. A jolly set of fellows they are. Without any sounding of trumpets these men have been working constantly, and many of the farmers in the vicinity of the line followed by the engineers thought the Wabash railroad proposed to traverse that territory, but they, as well as the people of Georgetown, have been laboring under a delusion.

The survey now being made is for an electric road, and if the grades in this part of Beaver county are found to be favorable, there is ample capital back of the project to have the road completed within a reasonable time. The surveyors, especially the men in charge of the corps of engineers, are reluctant to talk about the work that has already been done, though the cook and helpers about the camp have made the statement that the work is being done in the interests of the Wabash railroad. Electricity and not steam will be the motive power of this road, should it be built.

A reporter for the News Review visited the engineers' camp this morning, but while not many facts concerning the work could be gleaned, enough, however, was learned to prove that the road was to be run by electricity, and the termini would be at Cleveland and Pittsburg. Two months ago these men began to survey for a preliminary grade for the proposed road at Six Mile Ferry, just opposite Glenwood, Pittsburg. Their camps have been moved from one place to another, until the last camp on the south side of the river has been located, and that is soon to be broken.

A gentleman who seems high in authority among the surveyors, would make a good government official, for he is certainly an excellent interviewer. All sorts of questions were asked the reporter about the electric roads of East Liverpool and also of Chester: how council would act if another road would apply for a franchise to enter the city; the knowledge of any rights of way being taken up Beaver creek by another road; the advisability of building a road down on the Pennsylvania side of the river to connect with the East Liverpool and Chester railways; the matter of building a bridge at Smith's Ferry and Georgetown, and more of the same sort.

When asked for a plain statement of the work that had already been accomplished, the backers of the project and the destination of the engineers,

the gentleman at the camp gave the following:

"I am but a tool. We have been working on the scheme for a few weeks, and will move to the other side of the Ohio river about Monday."

Where the survey for the continuance of the road on this side of the river would be commenced the gentleman would not state. "This work may go through and it may not. Further, you must excuse me from talking, although I would be pleased to accommodate you with all the information possible. But sometimes a man can't talk, you know."

The gentleman then left the camp

TAYLER DECLINES

FORMAL NOTICE OF WITHDRAWAL AS CANDIDATE.

Chairman Fawcett Says the Congressional Convention Will Meet in July.

Canton, June 7.—Judge Jacob P. Fawcett received a letter from Congressman Robert W. Tayler, Wednesday evening, containing the formal notification of his withdrawal as the Republican candidate for congress from the Eighteenth district. Judge Fawcett is chairman of the congressional committee, and for this reason the declination was sent to him. The letter is dated Washington, D. C., June 3, 1902, and is as follows:

"Chairman Republican Congressional committee, Eighteenth District:

"Dear Sir—I hereby respectfully decline the nomination as the Republican candidate for congress from the Eighteenth district of Ohio.

"Yours respectfully,

"R. W. TAYLER."

Judge Fawcett said that while the members of the congressional committee had as yet held no meeting, they had communicated with each other by letter. He said that the convention to nominate a candidate to succeed Mr. Tayler would be held either on July 23 or July 30. The members of the committee have agreed that one of these dates shall be selected for holding the convention. Judge Fawcett said that the committee had not reached a decision on the place of holding the convention. He said that Salem, Canton and Alliance were all mentioned, and that one of these towns would likely be selected. He would prefer to have the convention held in Stark county.

Edward L. Graham Wants a Divorce and Files His Reasons.

Lisbon, June 6.—(Special)—Edward L. Graham, of Lisbon, has instituted suit for divorce against Itha L. Graham on the ground of extreme cruelty. He claims that she left him some time ago, and afterwards returned to his rooms and attempted to take their personal property by force. He endeavored to prevent her entrance and she attacked him, biting his arm and striking him on the head with a chair.

The merchants here have been notified by Mr. Graham that he will not pay debts contracted by his wife.

Interesting Controversy Over the \$25,000 Estate of Abraham Hartley.

Lisbon, June 6.—(Special)—Miss Lina Hartley and Mrs. Mary E. Burris, nieces of Abraham Hartley, late of Salineville, have been appointed administratrixes of their uncle's estate, with \$16,000 bond. His estate is quite large, being valued at about \$25,000.

No less than 40 heirs claim an interest in the property and some of them objected vigorously to the appointment of Miss Hartley and Mrs. Burris. They claim that Mr. Hartley made a will in which he gave them a share of his estate and that these ladies know more about the whereabouts than they profess.

CASH BOX BROKEN OPEN

In Telephone Booth, And a Portion of the Contents Abstracted—Everybody Thought a Telephone Company Employee Was Making Repairs.

One of the most daring thefts ever committed in East Liverpool occurred last evening between the hours of 9 and 10 at the Thompson house in the presence of at least 15 guests, all of whom were eye witnesses to the deed. The work of the perpetrator, who was an unknown man, was done so smoothly that no suspicion was aroused and he was allowed to finish the job and leave without interference.

In a bold manner the man walked into the hotel and without inquiry or hesitation entered the long distance telephone booth, on the north side of the hotel office, a few feet from the door opening on Broadway. In this booth there is an automatic collecting device, attached to the telephone. Quite often large sums of money are in the box. Knowledge of this fact prompted the unknown individual to the operation.

With a file he did the work. Using it as a pry he not only opened the box, but completely demolished it. Had there been much money the cash receptacle his efforts would have been well rewarded. Luckily, however, for the telephone company, only \$2.50 had been dropped in and of that he got but 95 cents. How he missed the remainder is unexplainable.

Almost an hour was consumed by the main in completing the job. He was interrupted but once and then only for a second. A guest went to the booth and opened the door, intending to use the line, when he saw the man at work, but supposing that he was in the employ of the telephone company, turned away, shut the door and let him continue.

The hotel clerk this morning happened to look into the booth, and noticed the conditions. He immediately gave the alarm, but it was too late. The man had done his work and made himself scarce, leaving no clue save a file broken into three pieces and blood spattered in the box. It is supposed that he cut his finger when the file broke.

SALEM MAN ARRESTED

Patrick Carroll, of Salem, was the only occupant of the city jail this morning. He was arrested last evening. Salem authorities, who telephoned Chief Thompson Wednesday that he had left that city owing a board bill of considerable size. He will be taken to Salem tonight or tomorrow.

Miss Irene Meyers, incarcerated for being drunk, was released last evening and shipped to Steubenville, where she claims to have relatives. The township trustees paid her fare.

RIVER IMPROVEMENTS WILL SOON BE BEGUN

Congressman B. B. Dovener, of Wheeling, Col. James M. Porter, of New Cumberland, and ex-Senator O. S. Marshall, of New Cumberland, were in Chester yesterday, the congressman coming to visit his Hancock county constituents.

While here Capt. Dovener gave a News Review reporter an interesting account of the status of the river and harbor appropriations for this section. The total appropriation for the Ohio river is about \$66,000,000, for dams No. 2 to 11, inclusive. For dam No. 8 at Walker, \$50,000 has been appropriated for the purchase of the site and \$250,000 for the erection of the locks. The whole improvement at that point is to cost \$850,000.

For dam No. 7, below Smith's Ferry, \$25,000 is appropriated for purchase of the site. The improvement there

BRICK COMPANY GETS A CHARTER

Local Corporation Formed With \$30,000 Capital to Engage in the Business.

MINE HAS BEEN PURCHASED

And a Costly Plant Will Be Erected at Once—Its Capacity Will Be 4,000,000 Brick a Year, All to Be Sold Here.

A certificate of incorporation has been issued by Secretary of State Laylin to the East Liverpool Brick Manufacturing company, which will manufacture, buy and sell brick, tile, terra cotta, earthenware and crockery and mine, mill and deal in clays, minerals and other materials.

The capital stock is \$30,000 divided into 300 shares. The incorporators are D. J. Wallace, R. E. Hill, Harvey McHenry, John Horwell and Robert Hall.

This company has been organized about a week, the need of an up-to-date brick yard being evident in this city for many years. The company has purchased 11 acres of land in which there is a 15 foot vein of clay, from the old Globe Pottery company, paying for the property the sum of \$5,250 in cash. The sale was made in order that the old stockholders of the Globe Pottery company might close their old books.

The plant will cost several thousand dollars, and while the contract for the new building will be likely let to Harvey McHenry, the contracts for the machinery have not been placed. Several men have been put to work making an entry into the lower vein of clay on this property, the opening being just below the mine from which the Globe Pottery company secured its clay when that concern was manufacturing yellow ware.

The capacity of the new plant will be in the neighborhood of 4,000,000 brick annually, all of which, it is expected, will be used in construction work in this city.

AGAINST SON-IN-LAW

Owen Smith, of Salineville, Gets a Judgment for \$864.

Lisbon, June 6.—(Special)—Owen Smith, of Salineville, yesterday secured a judgment for \$864.02, his claim in full against his son-in-law, Adolph Herter. Mr. Smith claimed that the sum was due him in part payment for 7½ acres of land in Franklin township and two lots in Summitville which he had sold to Herter. Herter claimed that he had paid Smith in full.

This case was tried before, when the jury returned a verdict for \$600, which was set aside for the reason that it should have been for the full amount claimed or nothing.

ONE STATE OFFICER

Of the Protected Home Circle to Be in East Liverpool—Delegates Return.

representing Stratton circle, of East Liverpool; Charles Snediker and Henry Henderson, of Wellsville circle, and William Wilhelm, representing the Salineville circle, returned.

The delegates report an excellent meeting, and succeeded in having one of the state officers located in East Liverpool, that of James C. Allison, who was elected grand sentinel. Charles Craig, of Canton, was elected grand secretary and William Bell, of Alliance, was elected grand treasurer. The meeting next year will be held at Dayton, and it would not be surprising to see the state meeting held in East Liverpool the year following.

DANGEROUS BRIDGE

THIRTY FEET HIGH AND WITHOUT ANY RAILING.

Citizens Will Petition Council to Have Carpenter's Run Structure Made Safe.

Residents of Sheridan avenue and Sunnyside will shortly present a petition to the council asking that steps be taken to insure the safety of those using the large stone culvert at Carpenter's run where it crosses California hollow.

The spot is an extremely dangerous one and has been so since the erection of the bridge about two years ago. The structure is perhaps 50 feet long, and at the center of the span not less than 30 feet high. The bridge is sufficiently wide for any use, but there are no railings along the sides.

The necessity for some sort of protection on either side of the bridge is at once apparent; for, in case a horse became frightened while on the bridge nothing could prevent it from going over the edge, talking with it anything to which it might be attached. A number of narrow escapes have occurred and the citizens are determined that something shall be done at once.

The locality is particularly dangerous at night when any one not acquainted is in very great danger of making a misstep and plunging over the edge. However, this danger has been lessened recently by the placing of a lamp at the bridge.

The residents believe a substantial railing should be erected on each side of the structure, extending its entire length.

The bridge was built by the East Liverpool Railway company and the cost was in the neighborhood of \$4,000, but it was never finished. The franchise granted to the company for its Sheridan avenue extension calls for railings to be built the entire length of the structure on either side. It is hoped that the petition can be completed, presented to council and favorably acted upon before anything of a serious nature occurs, as damages could easily be collected in case of accident.

FOR THE UNION LABEL

A Chicago Man Here to Encourage Its More General Use.

D. A. Kistler, of Chicago, arrived in the city today and will spend some time interviewing the heads of unions in the interests of a more general use of the union label on all classes of finished product.

Mr. Kistler is a member of the Traveling Salesmen's union, one of the first organizations in the United States to encourage the need of labels on goods produced by union labor. With Typographical union No. 16, of Chicago, the traveling salesmen began the difficult task of inducing the owners of the larger publishing houses to adopt the label.

Less than one year ago of the 40,000,000 publications in book form turned out in the country not one had the label. Through the efforts of Mr. Kistler and his associates 182,000 of these now contain the label, and the publishers pronounce the move an excellent one.

No Court Next Week.

Lisbon, June 6.—(Special)—Common pleas court adjourned today to Monday, January 16. No court will be held next week, because those interested in many of the cases assigned are not ready for trial. The assignment for the eighth week has been revised and includes many of the cases which were set for next week.

Annual Reunion at Rock Springs Park to Be a Great Affair.

SEVENTY RAILROAD COACHES

Will Bring the Visitors Who Are to Come Over the C. & P. Road.

FROM 10,000 TO 12,000 VISITORS

Expected at the Park Tomorrow—A Street Parade Will Precede an Interesting Program—Eagles of Three States Are to Participate.

The fifth annual reunion of the Knights of the Golden Eagle of three states will be held in this city tomorrow. From the statements made by the committee in charge, it is estimated that not less than 10,000 to 12,000 visitors will be in the city, which will certainly be the largest picnic that has ever been held at Rock Springs park. There will be a great

The Castle's Emblem.

crowd, and all day, in fact until midnight, the time set for the departure of the last train.

At the annual outing last year the Eagles decided upon Rock Springs park for the outing this year, and a committee composed of Edward Larkins, George Hales, Thomas Simpson, Joseph Smith and Thomas Lowmes, of Hope castle No. 23, was appointed from the local lodge to look after the reunion. For a year they have been working like Trojans to make the affair a success, and if the weather man gives a fair day, it will be the greatest ever seen in East Liverpool. Every detail, no matter how small, has been carefully looked after by the committee, and great credit is due its members for the manner in which they have done their work.

From an official of the C. & P. railroad it was learned this afternoon that seven trains, bringing 70 coaches and a total of almost 5,000 persons, would come to East Liverpool between the hours of 9 a. m. and noon.

The following statement is official of the trains that will be handled on the local railroad:

From Salineville, 6 coaches, 350 passengers; Bellaire, 8 coaches, 400; Steubenville, 6 coaches, 300; Cleveland, 10 coaches, 600; East Palestine, 14 coaches, 1,000; New Castle, 12 coaches, 850; Allegheny, 14 coaches, 1,200; Greensburg, Pa., 12 coaches, 1,000.

Other trains are expected to arrive at Chester on the Panhandle road, although so far only one train has been scheduled there. This may be changed during the day, and notice sent that additional trains will arrive.

This will be by far the largest picnic crowd that will be at the park during the season. The East Liverpool & Rock Springs Street Railway company, in order to prevent accident in the central part of the city and that all visitors may be handled properly, will run cars from the park to the corner of Third and Washington streets only. There will be from 10 to 12 cars on the road all day, and it is the intention of the company to handle not less than 2,500 passengers an hour.

The committee in charge of the reunion has arranged the following program for the day: Manley's and Haines' band will parade the streets during the morning, and at 6:30 one of the bands will leave the Diamond in a special car, going to the East End, thence to Wellsville and thence to the Diamond. This is for advertising purposes. At 11 o'clock there will be a grand street parade, which will form on Fifth street, right resting on Broadway. The route of the parade will be as follows:

From Broadway to Sixth, to Monroe, to Fourth, to Broadway; counter-march to Market, to Second, to Broadway, to Third. There the parade will

TAYLER DECLINES

FORMAL NOTICE OF WITHDRAWAL AS CANDIDATE.

Chairman Fawcett Says the Congressional Convention Will Meet in July.

Canton, June 7.—Judge Jacob P. Fawcett received a letter from Congressman Robert W. Tayler, Wednesday evening, containing the formal notification of his withdrawal as the Republican candidate for congress from the Eighteenth district. Judge Fawcett is chairman of the congressional committee, and for this reason the declination was sent to him. The letter is dated Washington, D. C., June 3, 1902, and is as follows:

"Chairman Republican Congressional committee, Eighteenth District:

"Dear Sir:—I hereby respectfully decline the nomination as the Republican candidate for congress from the Eighteenth district of Ohio.

"Yours respectfully,

"R. W. TAYLER."

Judge Fawcett said that while the members of the congressional committee had as yet held no meeting, they had communicated with each other by letter. He said that the convention to nominate a candidate to succeed Mr. Tayler would be held either on July 23 or July 30. The members of the committee have agreed that one of these dates shall be selected for holding the convention. Judge Fawcett said that the committee had not reached a decision on the place of holding the convention. He said that Salem, Canton and Alliance were all mentioned and that one of these towns would likely be selected. He would prefer to have the convention held in Stark county.

DANGEROUS BRIDGE

THIRTY FEET HIGH AND WITHOUT ANY RAILING.

Citizens Will Petition Council to Have Carpenter's Run Structure Made Safe.

Residents of Sheridan avenue and Sunnyside will shortly present a petition to the council asking that steps be taken to insure the safety of those using the large stone culvert at Carpenter's run where it crosses California hollow.

The spot is an extremely dangerous one and has been so since the erection of the bridge about two years ago. The structure is perhaps 50 feet long, and at the center of the span not less than 30 feet high. The bridge is sufficiently wide for any use, but there are no railings along the sides.

The necessity for some sort of protection on either side of the bridge is at once apparent; for, in case a horse became frightened while on the bridge nothing could prevent it from going over the edge, talking with it anything to which it might be attached. A number of narrow escapes have occurred and the citizens are determined that something shall be done at once.

The locality is particularly dangerous at night when any one not acquainted is in very great danger of making a misstep and plunging over the edge. However, this danger has been lessened recently by the placing of a lamp at the bridge.

The residents believe a substantial railing should be erected on each side of the structure, extending its entire length.

The bridge was built by the East Liverpool Railway company and the cost was in the neighborhood of \$1,000, but it was never finished. The franchise granted to the company for its Sheridan avenue extension calls for railings to be built the entire length of the structure on either side. It is hoped that the petition can be completed, presented to council and favorably acted upon before anything of a serious nature occurs, as damages could easily be collected in case of accident.

FOR THE UNION LABEL

A Chicago Man Here to Encourage Its More General Use.

D. A. Kistler, of Chicago, arrived in the city today and will spend some time interviewing the heads of unions in the interests of a more general use of the union label on all classes of finished product.

Mr. Kistler is a member of the Traveling Salesmen's union, one of the first organizations in the United States to encourage the need of labels on goods produced by union labor. With Typographical union No. 16, of Chicago, the traveling salesmen began the difficult task of inducing the owners of the larger publishing houses to adopt the label.

Less than one year ago of the 40,000,000 publications in book form turned out in the country not one had the label. Through the efforts of Mr. Kistler and his associates 182,000 of these now contain the label, and the publishers pronounce the move an excellent one.

No Court Next Week.

Lisbon, June 6.—(Special)—Common pleas court adjourned today to Monday, January 16. No court will be held next week, because those interested in many of the cases assigned are not ready for trial. The assignment for the eighth week has been revised and includes many of the cases which were set for next week.

Annual Reunion at Rock Springs Park to Be a Great Affair.

SEVENTY RAILROAD COACHES

Will Bring the Visitors Who Are to Come Over the C. & P. Road.

FROM 10,000 TO 12,000 VISITORS

Expected at the Park Tomorrow—A Street Parade Will Precede an Interesting Program—Eagles of Three States Are to Participate.

The fifth annual reunion of the Knights of the Golden Eagle of three states will be held in this city tomorrow. From the statements made by the committee in charge, it is estimated that not less than from 10,000 to 12,000 visitors will be in the city, which will certainly be the largest picnic that has ever been held at Rock Springs park. There will be a great

The Castle's Emblem.

crowd, and all day, in fact until midnight, the time set for the departure of the last train.

At the annual outing last year the Eagles decided upon Rock Springs park for the outing this year, and a committee composed of Edward Larkins, George Hales, Thomas Simpson, Joseph Smith and Thomas Lowmes, of Hope castle No. 23, was appointed from the local lodge to look after the reunion. For a year they have been working like Trojans to make the affair a success, and if the weather man gives a fair day, it will be the greatest ever seen in East Liverpool. Every detail, no matter how small, has been carefully looked after by the committee, and great credit is due its members for the manner in which they have done their work.

From an official of the C. & P. railroad it was learned this afternoon that seven trains, bringing 70 coaches and a total of almost 5,000 persons, would come to East Liverpool between the hours of 9 a. m. and noon.

The following statement is official of the trains that will be handled on the local railroad:

From Salineville, 6 coaches, 350 passengers; Bellaire, 8 coaches, 400; Steubenville, 6 coaches, 300; Cleveland, 10 coaches, 600; East Palestine, 14 coaches, 1,000; New Castle, 12 coaches, 850; Allegheny, 14 coaches, 1,200; Greensburg, Pa., 12 coaches, 1,000.

Other trains are expected to arrive at Chester on the Panhandle road, although so far only one train has been scheduled there. This may be changed during the day, and notice sent that additional trains will arrive.

This will be by far the largest picnic crowd that will be at the park during the season. The East Liverpool & Rock Springs Street Railway company, in order to prevent accident in the central part of the city and that all visitors may be handled properly, will run cars from the park to the corner of Third and Washington streets only. There will be from 10 to 12 cars on the road all day, and it is the intention of the company to handle not less than 2,500 passengers an hour.

The committee in charge of the reunion has arranged the following program for the day: Manley's and Haines' band will parade the streets during the morning, and at 6:30 one of the bands will leave the Diamond in a special car, going to the East End, thence to Wellsville and thence to the Diamond. This is for advertising purposes. At 11 o'clock there will be a grand street parade, which will form on Fifth street, right resting on Broadway. The route of the parade will be as follows:

From Broadway to Sixth, to Monroe, to Fourth, to Broadway; counter march to Market, to Second, to Broadway, to Third. There the parade will

EAST END TROUBLE OVER GIRL RESULTED IN FIGHT

A Very Warm Time at a Social
Function in Sandy
Bottom.

A GUEST KNOCKED DOWN

Rendered Unconscious And Given Se-
rious Cuts And Bruises—Police In-
vestigating And Several Arrests
Are Likely to Follow.

Clothed in the uniform of a private in the United States army, Herbert Springer, employed at Laughlin No. 2, became involved in a quarrel last evening at a hop given at the Hilton residence in Sandy Bottom. This morning he is walking the streets with his head in bandages, a deep cut on the crown of his head and also a deep cut over his left eye. He is also feeling very sore. For several days this dance has been looked forward to by the young men of the East End, especially those residing in Chaffinville and Sandy Bottom, as the leading event of the season.

There is every reason to believe that the affair was quite successful, as far as fighting was concerned. During the early part of the evening Springer, in company with several friends, told of the dance they were going to and the good time that was expected. Finally the dance was started, and dressed in his uniform, Springer went to the dance and commenced to enjoy himself with his friends.

According to the story told by Springer to his friends he was about to shake hands with a friend when he was struck on the head, and that was all he knew. It is said that most of the fighting was done by a young man named William Carl, and after Springer was knocked to the floor, it is alleged he was severely kicked, but by whom he does not know.

He was removed to the office of Dr. Davis, where seven stitches were required to close the cut on the back of his head and four stitches were placed in the cut over his left eye. Springer resides on First avenue, just in the rear of the East End fire station. It will be several days before he will be able to resume work.

The officers of the East End are making a thorough investigation of the fight, and if sufficient evidence can be found a number of arrests will be made.

By those who claim they are in a position to know the statement is made that Springer received a terrible beating, and that the trouble was over a girl. For a while it was feared the man was dead, as he was reported unconscious for some time.

Not many weeks ago there was a dance given at a home in Chaffinville, and during the progress of the festivities one of the merry-makers pulled a gun from his pocket and commenced to make trouble. Such dances will be looked after by the East End police in the future, as more than one complaint has been made about the actions of some of the people who attend these affairs.

The Opening a Success.

A well attended meeting of Ohio Valley council No. 23, O. U. A. M., was held last evening in the rooms in the East End. It was the first session held in this hall and the opening was a success in every particular. Luncheon was served at a late hour to the families of the members. This council is planning a visit to the General George H. Thomas council, of East Liverpool, which will likely be made some time next week.

STRUCK A GOOD WELL

Fergus Bros. Have One of the Best Yet Struck Near Smith's Ferry.

In the Smith's Ferry old field, Fergus brothers, of Beaver Falls, have completed drilling their latest well, and the well have been flowing at the rate of 35 barrels a day, which is claimed to be the best well that has been brought in in that section in recent years. The pumps will be applied very soon, and it is expected the well will produce at least 50 barrels a day.

The John Rayl Co., of East Liverpool and Wellsville, commenced drilling on its No. 3 well, in this field, Wednesday. The men in this company pooled about \$1,800 and the two wells that have been previously drilled proved to be dry holes. It is thought the company will meet with better success in its No. 3.

NEW SCHOOL HOUSE

Georgetown is Erecting One That Will Cost Not Less Than \$3,000.

Georgetown is putting on airs. That beautiful little village is to have a new school house that will cost not less than \$3,000. The contract has been let and the excavating for the foundation has been completed, lumber and stone have been hauled to the site, and when the new school term opens the children of that town will be taught in a new school house.

The old building has been found to be too small for the number of children. The new one will be two stories, contain from four to six rooms, and will be frame. All modern improvements will be used and the contract calls for the building to be completed by September.

Traveling Salesman Obligated a Small Boy And Paid for It.

A salesman for an East Liverpool grocery house was in the East End yesterday afternoon taking orders. While passing along Mulberry street a small boy with a bat and ball in his hand asked the salesman to "swat him one." Trying to please the youngster, the salesman hit the ball as hard as he could, knocking it through a store window, breaking the glass.

The salesman dropped the bat at once, went over to the store where the broken window was and paid \$1 for a new light. The salesman vowed he never more would try to please the small boy by playing ball in the streets.

Got a Bad Fall.

Lawrence Allison, while working on a scaffold about the new residence of Walter C. Supplee on Ohio avenue, received a fall which caused him to feel rather sore this morning. As it was his left arm was badly sprained and his back was severely scratched.

EAST END AFFAIRS.

HANNA FOR PANAMA

Advocates This Canal Route In
Speech For the Spooner
Amendment.

GIVEN VERY ATTENTIVE HEARING

Mr. Mitchell Urged That Unless
Nicaragua Route Was Determined
Upon by Congress It Would Mean
Perhaps Ultimate Defeat of Project.

Washington, June 6.—In further consideration of the isthmian canal project the senate heard yesterday two speeches, neither of which was completed. Mr. Hanna, of Ohio, spoke in favor of the Spooner amendment, conferring on the president authority to purchase the rights of the Panama Canal company if a valid title could be obtained, otherwise he shall decide upon the Nicaragua route. Mr. Mitchell supported the Hepburn bill for the construction of the canal by the Nicaragua route. Seldom has a senator been accorded a more attentive hearing than that given Mr. Hanna. The Panama route he considered much to be preferred to the Nicaragua route, as it provided an interoceanic waterway much shorter and one that could be traversed at less expense than the Nicaragua route. He maintained that the United States was to build the canal to accommodate the commerce of the world, and said that fact must be taken into account.

Mr. Mitchell urged that unless the Nicaragua route was determined upon definitely by congress it would mean the indefinite postponement and perhaps the ultimate defeat of any canal legislation. He insisted that the Nicaragua route was entirely feasible and practicable, while the Panama route involved difficulties which were scarcely to be surmounted.

The senate passed the military academy appropriation bill providing for extensive improvements at West Point.

CHALMETTE CAMP WAS LEGAL.

No Violation of Neutrality—Accusations of Enlistments Not Proven.
Report Sent to House.

Washington, June 6.—President Roosevelt, in response to a resolution of inquiry, with a letter, transmitted to the house the report of Colonel Crowder, on the British mule camp at Chalmette, La. He also gave the substance of a letter written by Secretary Hay to the governor of Louisiana, dated June 3.

Secretary Hay in this letter sums up the main facts as found by Colonel Crowder and also gives rules of international usage respecting the sale of goods to parties at war. Mr. Hay says the serious point in the charges submitted by Mr. Pearson and by the Boer legislative committee of Philadelphia, was that the British authorities had enlisted men in this country for service in South Africa. The government made particular efforts to find out if there was any basis for this charge, but Mr. Hay says that Colonel Crowder's report shows that not a single instance could be discovered by him. Moreover, the attorney general, on May 12, requested the Boer legislative committee for evidence which would substantiate this charge, but received no information from them on this point. He further also says in part:

Chalmette Not Military Camp.

"What has been found is that certain officers of the British army, acting in the capacity of purchasing agents and inspectors, have been engaged in the work of buying, collecting and inspecting horses and mule, at different places in the United States and shipping them from Chalmette to South Africa. There have been 13 of these officers. The British government some time since ordered the recall of all of them. The men employed under them have all been Americans. Chalmette was not a military camp or post nor a base of military supplies, as the terms are defined by standard military authorities, nor in any sense save such as would make a flouring mill or a packing house a base of military supplies, if flour or canned meat were shipped from either through a series of months to any belligerent power. Chalmette was simply a shipping station for mules."

Mr. Hay next addresses himself to the law in the matter, in part as follows: "He says our duty has been laid down again and again. He quotes from the declaration of Thomas Jefferson when secretary of state at the time of the hostilities between England and France:

Citizens Free to Sell Goods.

"Our citizens have always been free to make, vend and export arms. To suppress their callings because a war exists in foreign and distant countries in which we have no concern hardly would be expected."

Similar declarations by Alexander Hamilton, President Pierce, Chief Justice Chase and President Grant are cited.

Colonel Crowder, in part, at one point says that the only enlistments were a few muleteers, and this against the orders of the British government.

NERVOUS EXHAUSTION

An Every Day History—High Strung, Nervous, Excitable, Constant Headaches, No Rest at Night, Heart Weak, Appetite Poor, Loss of Weight, Strength All Gone.

Read the following: Mrs. G. L. Yager, of No. 152 Broadway, East Liverpool, Ohio, says: "Dr. A. W. Chase's medicines are all good. Past experience with them led me to use the doctor's Nerve Pills. I got them at Larkins' drug store, as I was nervous, run down, felt miserable and the heart action was weak and irregular. The medicine made me strong and my nerves steady. The heart action regular and strong, and altogether a different person, as I feel well and healthy again."

Dr. A. W. Chase's Nerve Pills are sold at 50 cents a box at dealers or Dr. A. W. Chase Medicine company, Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

MILES TO BE TRIED

SAID TO HAVE BEEN SUMMONED
BY ROOSEVELT.

Alleged to Have Betrayed Official Secrets—Passed Through Kansas City For Washington.

Kansas City, Mo., June 6.—The Journal was expected today to say in part:

Lieutenant General Nelson A. Miles commanding the army, passed through Kansas City last night on his way from Fort Riley to Washington, called there by President Roosevelt and threatened with an immediate court martial on a charge of having betrayed official secrets.

A Journal reporter read to General Miles a special dispatch saying that he was suspected in the White House of having furnished details of the scandal involving Lieutenant Arnold to Senator Culberson. General Miles comment was:

"Senator Culberson seems to have made an answer as full as one could make, and as explicit as Senator Beveridge or any one could demand."

"But, for yourself, General?"

"I repeat that Senator Culberson seems to have made the reply for which you are asking."

"There is a second dispatch, General," was then remarked, "to the effect that you are peremptorily ordered back to Washington to face charges."

General Miles would make no reply to this question.

Denied by Strike Leader.

Youngstown, O., June 6.—President James McMahon, of the Blast Furnace Workers and Smelters' union made a positive denial of the story sent out from Pittsburgh yesterday in which it was stated that he had ordered the unions to withdraw the demand for an eight-hour turn and make the best settlement possible.

Wintering in Colorado And Utah.

The climate of Colorado and Utah has long been world famous, but it is only within recent years that attention has been given to the delightful winter climate of these states. Today physicians all over the United States send their patients to Colorado and Utah to escape the rigors of eastern winters and to benefit by her invigorating atmosphere and health-giving sunshine.

It is not necessary to add an elaborate argument—the conclusion is self-evident and inevitable. The winter climate of Colorado and Utah on the whole presents advantages for the invalid and the pleasure-seeker that cannot fail to command attention.

An erroneous impression prevails that because the Rocky mountains have a high elevation the mercury in the thermometer drops down below zero in the winter season and stops there, and that the snow mounts up with the altitude. The fact is that the average precipitation of moisture in the lowlands of the mountain region during the entire year is only 14.15 inches. With such average precipitation there is practically no danger of snow blockades on the railroads, save at a few points exposed to drifts and these points have been amply protected. This is especially true of the lines of the Denver & Rio Grande and the Rio Grande Western between Denver and Ogden at all seasons of the year. Facts speak for themselves, and the fact is that travel over "The Scenic Line of the World" has gone on with less interruption from snow blockades during the last ten winters than it has upon the majority of railroads in other localities which are popularly supposed to be more free from such delays than the mountain systems. Every East Liverpool citizen is
proud of his city's progressive spirit,
its business enterprise and general
prosperity. With all this, there are
other things which cannot be con-
templated with either pride or satisfac-
tion. Dirty and littered streets; paved
thoroughfares blocked up for half their
width by those who have chosen to use
them as dumping grounds; broken
sidewalks and uneven pavements; the
absence of signs to indicate the names
of streets and numbers on the houses
—all of these things are disagreeable
to residents and a positive injury to
the city's reputation in the eyes of
strangers and visitors. It is time to
seek a remedy and to prove that East
Liverpool is up-to-date in everything.

The captain of a steamer that ar-
rived at Philadelphia found land in the
Caribbean sea where there were no
islands before. There was a large
island afloat, populated by monkeys
and birds, but without human inhabi-
tants. It is supposed to have broken
off from Martinique or some other
land during the recent convulsion.
Mont Pelée is likely to keep geogra-
phers as well as other scientists guess-
ing.

The building of an isthmian canal is
purely a business proposition. There
should be no politics in the discussion
of the question. The time has arrived
to decide it, and congress, having set
about the task, should not abandon it,
until all the preliminaries for starting
the work have been arranged. The na-
tion was never in a better position for
building a canal; never better able to
protect it after it is built. The work
should be hastened.

The national president of the Wo-
man's Relief corps has issued a call
for a general observance of flag day,
Saturday, June 14, by schools and pa-
triotic organizations. Any exercises
calculated to increase respect for the
flag and to educate the youth of Amer-
ica as to its true significance deserve
to be encouraged.

If surveying would have accomplish-
ed it, Columbiana county would have
been covered with a network of trolley
roads and other railroads long ere
this. Everybody will be anxious for
tangible results from the survey for
a railroad now heading this way from
the other side of the state line over in
Beaver county.

A man who is too timid to be out-
spoken in condemnation of lynching is
not fit to be president. And yet, be-
cause President Roosevelt expresses
his opinion on the subject, certain
southern gentlemen are condemning
him. Their attacks will merely en-
hance the president's popularity.

Illinois Republicans will congratu-
late themselves anew on having
dropped Senator Mason after reading
his speech on the Philippine bill. Mr.
Mason represents himself, and no-
body else, with great zeal.

Col. Lynch, an Irish member of par-
liament, who is accused of having
fought with the Boers, wants to prove

his undoubted courage by resuming his
seat in the house of commons. The
colonel is evidently in search of more
fighting, and pretty sure to find it.

Democrats are turning to David B.
Hill as a presidential candidate. The
last time Hill figured in politics was
in 1894. He was then nominated for
governor of New York and was beaten
by 156,000 plurality.

Democratic newspapers in Ohio con-
tinue to be filled with tales of Repub-
lican dissatisfaction. The lack of har-
mony, as usual, exists in their fertile
imaginings, and there only.

The Democracy of several states,
having already invited William J.
Bryan to take a rear seat, now shows
a disposition to throw him out bodily
unless he complies.

Representative Sibley, of Pennsylvania,
is right. This is a great country,
but it has no room for anarchists.

That Russian volcano that throws
nothing but ash might appropriately be
renamed Mt. Tillman.

The army mule is not a good Demo-
cratic issue, now that the Boer war is
over.

General Miles is suspected of talking
again.

OBITUARY

Mrs. Eliza Troup.

Mrs. Eliza Troup, aged 66 years, died
at the home of her niece, Mrs. Archie
Searight, of Pennsylvania avenue, East
End, last evening at 9 o'clock, very
unexpectedly, from cancer. The re-
mains will be taken to Glasgow church
at Smith's Ferry, tomorrow afternoon,
and after the services there, to her late
home in Smith's Ferry, whence they
will be taken Sunday morning to
Raccoon cemetery. She is survived by
her husband, whose age is about 87
years. Her only son, Dr. White
Troup, died several years ago at Win-
tersville, a few miles back of Steu-
benville, in Jefferson county. He at
one time was a candidate for state
senator, and was well known in this
part of Columbiana county. Mrs.
Troup has been at the home of Mrs.
Searight for two weeks, and soon after
she was brought to the East End
there was quite an improvement in her
condition. Her death was very sud-
den.

Mrs. J. N. McCullough.

Mrs. Rebecca T. McCullough, wife
of John N. McCullough, late president
of the Pennsylvania railroad com-
pany, died at the family home in Al-
legheny Wednesday night. Mrs. Mc-
Cullough was born on a farm near
Wellsville, and was married to J. N.
McCullough in 1852, and resided in
Wellsville until the family removed
to Allegheny about 35 years ago. She
is survived by one daughter, Mrs.
Harry Darlington, of Allegheny. The
interment will be made beside the re-
mains of her husband in the family
burying ground in Spring Hill cem-
etery, Wellsville, tomorrow.

POTTERY NEWS

Once more the story of a combina-
tion is going the rounds. This time it
is stated that manufacturers and cer-
tain promoters will confer regarding
a consolidation about the last of the
month. Early in May, just one month
ago today, the printed proposition of
Messrs Irwin and Trainer were re-
ceived in this city by the several manu-
facturers. It seems that it generally
requires about 30 days for a new com-
bination story to go the rounds. How-
ever, everything is worth watching,
no matter how slight or little the rum-
or may be.

The members of the committee
which had charge of the annual Bro-
therhood outing, it is expected, will
have their report ready by Saturday
evening. There are several details
yet to be gone over, and as soon as
these are completed the report will
be ready. It is expected that the Bro-
therhood will clear between \$500 and
\$700 on the affair, which is quite an
increase over the outings of other
years.

It is stated that William Mayer, one
of the best known dippers in the city,
and a resident of Derby Road, will
again become a resident of England,
and is thinking of removing his family
to that country. Mr. Mayer could not
be seen today to have the statement
verified. Mr. Mayer has been employ-
ed at the McNicol plant for some time,
and is one of the steadiest workmen in
the trade.

Quite an improvement is to be
made at the plant of the Edwin
M. Knowles company. The concern
has been in business but a short time,
but still it has been afforded a good
trade. It is now the intention to erect
two new kilns, which will increase the
capacity considerably. Work on the
improvement is expected to be started
within two weeks.

The new plant of the Anderson man-
ufacturing company, which will be
erected at Trenton, will cost in the
neighborhood of \$15,000. The company
was formed but recently, and will con-
duct a special pottery decorating busi-
ness, and "will deal in buy, sell, trade
in any and every kind of earthenware."

James Green, a kilnhand at the Dia-
mond is the proud father of a daugh-
ter, which came to his home on Wed-
nesday evening. Mr. Green is now
the father of six children. He present-
ed the crew with which he works with
a box of cigars.

The following locals will meet in
regular session this evening: Kiln-
men's local No. 9; warehousemen, No.
48; Dippers, No. 18, and packers, No.
25. Each meeting, it is said, will be
filled with interesting discussions.

In attempting to give the public
some pottery news a local paper seems
to have gone over the files of the News
Review, culling thereby much matter
that has been published in this paper
from a week to a month ago.

Statistician John Wood, of kilnmen's
local No. 9, yesterday measured sev-
eral of the new kilns at the recent ad-
dition at the Laughlin pottery.

SURVEY NOW IN PROGRESS

(Continued from First Page.)

for the field, and during the afternoon
proposed to go to Pittsburg.

On the Hookstown road from
Georgetown can be noticed stakes
driven in the road, some on the east,
others on the west side of the road.
These stakes are of common lath, and
each is numbered. The stakes are set
as far as Georgetown, and the engi-
neers are now working on the hillside,
just east and above the stakes that
were placed in the road a few days
ago. Bushes are being chopped down,
stumps of trees are being destroyed,
large stakes are being driven in the
ground, and everybody has a business-
like appearance.

The people of Georgetown are much
interested in the work, and their hope
is that something will come of the la-
bor, which, from all indications, is
proving quite costly.

There are about five cots in each of
the four tents, which are occupied by
the men. There are two large wagons
which are used to move the camp when
necessary, and these are kept very
clean. This morning one of the color-
ed men working at the camp placed
both wagons in the creek, and cleaned
them as if they were livery rigs. Ex-
cellent food is furnished the men in
the corps, all of which is purchased
in the country districts. There were
a dozen chickens waiting to be cooked
for the dinner today, while all the
vegetables of the season, direct from
the farm are provided. Such is life
among the corps of engineers.

Several citizens of Georgetown who
profess to have some direct infor-
mation bearing on the subject state that
the work of the engineers is the clos-
ing of a link of space for an electric
line from Cleveland to Pittsburg, being
backed by Cleveland, Pittsburg and
New York capital. The announce-
ment was also made that the western
portion of this road was already under
construction, but the projectors were
experiencing some difficulty in getting
into Pittsburg.

It has been a known fact that for
some time the Wabash railroad repre-
sentatives have been talking electric
railway, and this may be one of its
projects. Practically all the property
along the Beaver creek has either been
optioned or purchased outright by sev-
eral companies which propose to con-
struct a railway up that valley, and it
is reasonable to believe that when the
right of way men make a canvass of
that territory, they will have some
difficulty in purchasing rights of way.

FRIENDS AND VISITORS

Mr. and Mrs. F. A. Leonard left to-

night.

Carl Stanley, who has been visiting
relatives and friends in this city for
several weeks, left yesterday for his
home at Eureka, W. Va.

Miss Ethel Moore, who has had
charge of the Pleasant Heights school
during the past year, left yesterday for
her home in Clarkson, where she will
spend her vacation.

Mr. and Mrs. Charles Murphy, of
Salem; W. L. Murphy, and wife, of
Sebring; Mrs. George R. E. Giffchrist
and daughter, Virginia, of Wheeling,
are visiting at T. B. Murphy's, on

at Portsmouth.

Findlay, O., June 6.—The Ohio
State Sunday School association
closed its forty-third annual con-
vention in this city last night. It was
the largest and most enthusiastic
convention ever held by the associa-
tion.

The following officers were elected
for the ensuing year: President, W.
A. Eudaly, Cincinnati; vice president,
J. G. Slayter, Akron; secretary, Rev.
Joseph Clark, D. D. Columbus; treas-
urer, N. D. Barrett, Springfield.

The next convention will be held
in Portsmouth, O., in June, 1903.

International Missionary Union.

Clifton Springs, N. Y., June 6.—
The opening session of the Interna-
tional Missionary union yesterday in-
cluded a devotional hour, in charge
of Dr. W. E. Witter of Assam. The
Rev. J. T. Gracy, president, outlined
his plans for the coming sessions. A
business hour followed for the or-
ganization of committees that will
have charge of the coming sessions.

Big Sum For Theological School.
Newton, Mass., June 6.—Encow-

nearly \$500,000 for the year for the
Newton Theological seminary were
announced yesterday. The gifts in-
cluded \$200,000 raised to receive an
equal sum from John D. Rockefeller.
Eighteen men were graduated yes-
terday.

Reformed Church Synod.
Asbury Park, N. J., June 6.—The
business session of the general synod
of the Reformed church in America
yesterday was opened by the new
president, Dr. Abbott E. Kittredge.
At least a hundred delegates more
were in attendance than Thursday.

Washington, June 6.—The navy de-
partment will make a statement Sat-
urday as to the outcome of the court
of inquiry on board the Chicago at
Naples, but it is not expected that
the full proceedings of the court, no
even the text of the conclusions, will
be published.

It is understood that the court
found something to criticize in the
conduct of the officers who were ar-
rested, but Secretary Moody does not
agree with the conclusions on those
points, and consequently they will be
disapproved. Thus the outcome will
be a vindication in substance, and
there will be no further proceeding
in the nature of a court martial.

again become a resident of England,
and is thinking of removing his family
to that country. Mr. Mayer could not
be seen today to have the statement
verified. Mr. Mayer has been employ
ed at the McNicol plant for some time,
and is one of the steadiest workmen in
the trade.

Quite an improvement is to be
made at the plant of the Edwin
M. Knowles company. The concern
has been in business but a short time,
but still it has been afforded a good
trade. It is now the intention to erect
two new kilns, which will increase the
capacity considerably. Work on the
improvement is expected to be started
within two weeks.

The new plant of the Anderson man
ufacturing company, which will be
erected at Trenton, will cost in the
neighborhood of \$15,000. The company
was formed but recently, and will con
duct a special pottery decorating busi
ness, and "will deal in buy, sell, trade
in any and every kind of earthenware."

James Green, a kilnhand at the Dia
mond is the proud father of a daugh
ter, which came to his home on Wed
nesday evening. Mr. Green is now
the father of six children. He present
ed the crew with which he works with
a box of cigars.

The following locals will meet in
regular session this evening: Kiln
men's local No. 9; warehousemen, No.
48; Dippers, No. 18, and packers, No.
25. Each meeting, it is said, will be
filled with interesting discussions.

In attempting to give the public
some pottery news a local paper seems
to have gone over the files of the News
Review, culling thereby much matter
that has been published in this paper
from a week to a month ago.

Statistician John Wood, of kilnmen's
local No. 9, yesterday measured sev
eral of the new kilns at the recent ad
dition at the Laughlin pottery.

(Continued from First Page.)

for the field, and during the afternoon
proposed to go to Pittsburg.

On the Hookstown road from
Georgetown can be noticed stakes
driven in the road, some on the east,
others on the west side of the road.
These stakes are of common lath, and
each is numbered. The stakes are set
as far as Georgetown, and the engi
neers are now working on the hillside,
just east and above the stakes that
were placed in the road a few days
ago. Bushes are being chopped down,
stumps of trees are being destroyed,
large stakes are being driven in the
ground, and everybody has a business
like appearance.

The people of Georgetown are much
interested in the work, and their hope
is that something will come of the la
bor, which, from all indications, is
proving quite costly.

There are about five cots in each of
the four tents, which are occupied by
the men. There are two large wagons
which are used to move the camp when
necessary, and these are kept very
clean. This morning one of the color
ed men working at the camp placed
both wagons in the creek, and cleaned
them as if they were livery rigs. Ex
cellent food is furnished the men in
the corps, all of which is purchased
in the country districts. There were a
dozen chickens waiting to be cooked
for the dinner today, while all the
vegetables of the season, direct from
the farm are provided. Such is life
among the corps of engineers.

Several citizens of Georgetown who
profess to have some direct infor
mation bearing on the subject state that
the work of the engineers is the clos
ing of a link of space for an electric
line from Cleveland to Pittsburg, being
backed by Cleveland, Pittsburg and
New York capital. The announce
ment was also made that the western
portion of this road was already under
construction, but the projectors were
experiencing some difficulty in getting
into Pittsburg.

It has been a known fact that for
some time the Wabash railroad rep
resentatives have been talking electric
railway, and this may be one of its
projects. Practically all the property
along the Beaver creek has either been
optioned or purchased outright by sev
eral companies which propose to con
struct a railway up that valley, and it
is reasonable to believe that when the
right of way men make a canvass of
that territory, they will have some
difficulty in purchasing rights of way.

at Portsmouth.

Findlay, O., June 6.—The Ohio
State Sunday School association
closed its forty-third annual con
vention in this city last night. It was
the largest and most enthusiastic
convention ever held by the associa
tion.

The following officers were elected
for the ensuing year: President, W.
A. Eudaly, Cincinnati; vice president,
J. G. Slayter, Akron; secretary, Rev.
Joseph Clark, D. D. Columbus; treas
urer, N. D. Barrett, Springfield.
The next convention will be held
in Portsmouth, O., in June, 1903.

WELLSVILLE

A WELLSVILLE MAN

Who Complained of Ill-Treatment in the Lockup at Pittsburg.

George Fetterman, of Wellsville, an old soldier who has been blind for 20 years, was locked up in central police station this week for playing a hand organ at Sixth street and Liberty avenue, Pittsburg. Fetterman was a private in Company D, Forty-first regiment, Pennsylvania volunteers, during the civil war. At the second battle of Bull Run he was wounded in the head, from which cause he lost the sight of both eyes over 20 years ago. Since going blind he has lived on a pension of \$12 a month and what small amount he could get from the public while playing his organ on the pavements in various cities.

Some time ago Fetterman procured a license to play on the sidewalks of Pittsburg, and he says that it was good until next October. At a hearing before Magistrate Bernard McKenna the morning after he was locked up, this license was taken from him and he was told either to stop playing on the sidewalks or leave the city. Fetterman says that when he was locked up he received nothing to eat for almost a day and that during his hearing the officials made light of his blindness and poverty.

Supt. of Police John McAleese says the statements made by Fetterman as to his treatment in the lockup are false.

EVANGILISTIC WORK.

Presbyterian Committee to Meet at Winona, During Bible Conference.

TENT MEETINGS VARIOUS PLACES

Committee to Find Means For Them, With View of Reaching Non-Church Going People — Eminent Scotch Preacher to Attend Bible Conference

Warsaw, Ind., June 6.—(Rev. J. Wilbur Chapman, secretary of the evangelistic committee, appointed by the Presbyterian general assembly at its recent session in New York, announced yesterday afternoon that the next meeting of the committee would be held at Winona during the National Bible conference, Aug. 17 to 27. All the Presbyterian pastors of the middle western states will receive invitations to be present.

The committee work is to find means of holding tent meetings in all parts of the United States, with a view to bringing non-church going people into membership if possible. John Converse, of New York, is chairman of the committee. Dr. Chapman received word yesterday that Rev. John Robertson, an eminent preacher of Scotland, will attend the Bible conference and take part in the program.

REV. DR. HILLIS PRESIDENT.

Chosen by Congregational Home Missionary Society—Debt Wiped Out.

Syracuse, N. Y., June 6.—After devotional services the Congregational Home Missionary society in national convention yesterday held a business meeting for reports and election of officers. The treasurer's report says the year began with a net debt of \$63,698, which has since been completely extinguished. The receipts from all sources were \$316,849; expenditures, \$293,063.

The auxiliary societies raised and expended in their own folds, during the year, \$255,612. Adding this to the total receipts of the national society gives a grand total of receipts for home missions for the year of \$602,452, and a grand total of expenditures of \$548,676.

The following officers were elected: President, the Rev. Newell Dwight Hillis, New York; vice presidents, E. Clark Ford, of Ohio; the Rev. Charles P. Brown, of California; Harry J. Hollister, of Michigan; the Rev. Michael Burnham, of Missouri; William D. Hyde (president of Bowdoin), of Maine; the Rev. Reuben Thomas, of Massachusetts; Justice David J. Brewer, of Washington; the Rev. Colvin McClelland, of Rhode Island; auditor, George S. Edgell, of New York; executive committee, to serve until 1907, the Rev. E. N. Packard, of Syracuse, N. GRADE CONTROVERSY

OCCUPIED THE ATTENTION OF CHESTER COUNCIL.

Action Deferred on Carolina avenue Improvement—Damage Suits Threatened.

When the reports of committees was called for last evening at the Chester council meeting Mr. Johnston, of the street committee, reported that the committee had met with Engineer Boyd last Saturday. Mr. Boyd gave a grade which was unsatisfactory to the committee.

The committee also viewed the county road on the east side of Rock Springs park, and reported that it was first class, and an improvement on the old road in the valley. The old road was accepted by council.

A proof of the advertisement of the Ohio Valley Street railway was filed at the meeting last evening which stated that the road is to be completed and in operation in eighteen months. The ordinance was read, but further action was deferred until the next regular meeting.

Mayor Shrader reported that several complaints had been made to him about the street railway crossings at Fourth and Fifth streets, and thought that some action should be taken by council, compelling the street railway people to open a crossing at these two points, suitable for teams to pass. On motion the street committee was instructed to notify the street railway to attend to the matter.

Mayor Shrader also reported complaints regarding the present grade established on Carolina avenue, between Third and Fourth streets.

Councilman Haugh, who resides between the two streets mentioned, objected to the present grade, but stated that his property was not so badly damaged as that of his neighbors whose cellars will undoubtedly be undermined, the grade being so low.

At this point Councilman Johnston remarked that he had always been turned down, the other councilmen maintaining that the grades established were not correct. "Now," said he, "you can fight the matter out among yourselves."

Many property owners said that they would ask the city for damages.

Mayor Shrader stated that some action should be taken to prevent the grade from damaging any one's property. Mr. Haugh then requested E. D. Marshall, a property owner on the street, to give his opinion, but he had nothing to say.

A motion was finally made by Mercer that the matter be left in the hands of the street committee for the present. The motion was carried.

E. D. Marshall warned the street committee to note that several property owners on Carolina avenue between Fourth and Fifth streets had built their houses to conform with the present grade, and if the grade is raised they will also expect damages.

Councilman Mercer asked that Indiana avenue be opened from Second to Fourth streets and Pennsylvania avenue from Second to First street, as the streets are much needed, and teams cannot now pass through on it. After favorable opinions were heard from other councilmen and the street commissioner, the latter was ordered to commence the work at once. Council then adjourned.

REPUBLICAN PRIMARIES

Great Interest in the West Virginia Contest Which Comes Off Tomorrow.

The Republican primaries in Hancock county will take place tomorrow between 1 and 8 p. m., eastern standard time. The main contest is for congressman, Capt. Davenport of Wheeling and E. M. Showalter, of Marion county, being the candidates. Locally the interest centers in the county clerkship Thomas Cochran, W. H. Beebout and A. S. Cooper being the candidates.

W. F. Brown and John E. Newell are the candidates for the legislature. The voting place at Chester is at the town hall.

Grade Not Satisfactory.

The street committee of Chester council met this morning at 8 o'clock to inspect the present grade on Carolina avenue between Third and Fourth streets, which is said to be about 18 inches too low, thus damaging property along that thoroughfare. It was decided by the committee that the present grade was not satisfactory and that a new one be established. This report will be given to council at the next meeting.

Attended Council Meeting.

W. H. Beebout, the probably successful candidate for the county clerkship, from New Cumberland, was in Chester last evening, and attended the meeting of the town council. Mr. Bee-

Presbyterian Committee to Meet at Winona, During Bible Conference.

TENT MEETINGS VARIOUS PLACES

Committee to Find Means For Them, With View of Reaching Non-Church Going People — Eminent Scotch Preacher to Attend Bible Conference

Warsaw, Ind., June 6.—Rev. J. Wilbur Chapman, secretary of the evangelistic committee, appointed by the Presbyterian general assembly at its recent session in New York, announced yesterday afternoon that the next meeting of the committee would be held at Winona during the National Bible conference, Aug. 17 to 27. All the Presbyterian pastors of the middle western states will receive invitations to be present.

The committee work is to find means of holding tent meetings in all parts of the United States, with a view to bringing non-church going people into membership if possible. John Converse, of New York, is chairman of the committee. Dr. Chapman received word yesterday that Rev. John Robertson, an eminent preacher of Scotland, will attend the Bible conference and take part in the program.

REV. DR. HILLIS PRESIDENT.

Chosen by Congregational Home Missionary Society—Debt Wiped Out.

Syracuse, N. Y., June 6.—Attended devotional services the Congregational Home Missionary society in national convention yesterday held a business meeting for reports and election of officers. The treasurer's report says the year began with a net debt of \$63,698, which has since been completely extinguished. The receipts from all sources were \$346,849; expenditures, \$293,063.

The auxiliary societies raised and expended in their own folds, during the year, \$255,612. Adding this to the total receipts of the national society gives a grand total of receipts for home missions for the year of \$602,462, and a grand total of expenditures of \$548,676.

The following officers were elected: President, the Rev. Newell Dwight Hillis, New York; vice presidents, E. Clark Ford, of Ohio; the Rev. Charles P. Brown, of California; Harry J. Hollister, of Michigan; the Rev. Michael Burnham, of Missouri; William D. Hyde (president of Bowdoin), of Maine; the Rev. Reuben Thomas, of Massachusetts; Justice David J. Brewer, of Washington; the Rev. Calvin McClelland, of Rhode Island; auditor, George S. Edgell, of New York; executive committee, to serve until 1907, the Rev. E. N. Packard, of Syracuse, N. Y.; the Rev. W. B. Holman, of Connecticut; the Rev. W. H. Wainwright, of Pennsylvania.

GRADE CONTROVERSY

OCCUPIED THE ATTENTION OF CHESTER COUNCIL.

Action Deferred on Carolina avenue Improvement—Damage Suits Threatened.

When the reports of committees was called for last evening at the Chester council meeting Mr. Johnston, of the street committee, reported that the committee had met with Engineer Boyd last Saturday. Mr. Boyd gave a grade which was unsatisfactory to the committee.

The committee also viewed the county road on the east side of Rock Springs park, and reported that it was first class, and an improvement on the old road in the valley. The old road was accepted by council.

A proof of the advertisement of the Ohio Valley Street railway was filed at the meeting last evening which stated that the road is to be completed and in operation in eighteen months. The ordinance was read, but further action was deferred until the next regular meeting.

Mayor Shrader reported that several complaints had been made to him about the street railway crossings at Fourth and Fifth streets, and thought that some action should be taken by council, compelling the street railway people to open a crossing at these two points, suitable for teams to pass. On motion the street committee was instructed to notify the street railway to attend to the matter.

Mayor Shrader also reported complaints regarding the present grade established on Carolina avenue, between Third and Fourth streets.

Councilman Haugh, who resides between the two streets mentioned, objected to the present grade, but stated that his property was not so badly damaged as that of his neighbors whose cellars will undoubtedly be undermined, the grade being so low.

At this point Councilman Johnston remarked that he had always been turned down, the other councilmen maintaining that the grades established were not correct. "Now," said he, "you can fight the matter out among yourselves."

Many property owners said that they would ask the city for damages.

Mayor Shrader stated that some action should be taken to prevent the grade from damaging any one's property. Mr. Haugh then requested E. D. Marshall, a property owner on the street, to give his opinion, but he had nothing to say.

A motion was finally made by Mercer that the matter be left in the hands of the street committee for the present. The motion was carried.

E. D. Marshall warned the street committee to note that several property owners on Carolina avenue between Fourth and Fifth streets had built their houses to conform with the present grade, and if the grade is raised they will also expect damages.

Councilman Mercer asked that Indiana avenue be opened from Second to Fourth streets and Pennsylvania avenue from Second to First street, as the streets are much needed, and teams cannot now pass through on it. After favorable opinions were heard from other councilmen and the street commissioner, the latter was ordered to commence the work at once. Council then adjourned.

REPUBLICAN PRIMARIES

Great Interest In the West Virginia Contest Which Comes Off Tomorrow.

The Republican primaries in Hancock county will take place tomorrow between 1 and 8 p. m., eastern standard time. The main contest is for congressman, Capt. Dovenor, of Wheeling and E. M. Showalter, of Marion county, being the candidates. Locally the interest centers in the county clerkship Thomas Cochran, W. H. Beebout and A. S. Cooper being the candidates.

W. F. Brown and John E. Newell are the candidates for the legislature. The voting place at Chester is at the town hall.

Grade Not Satisfactory.

The street committee of Chester council met this morning at 8 o'clock to inspect the present grade on Carolina avenue between Third and Fourth streets, which is said to be about 18 inches too low thus damaging property along that thoroughfare. It was decided by the committee that the present grade was not satisfactory and that a new one be established. This report will be given to council at the next meeting.

Attended Council Meeting.

W. H. Beebout, the probably successful candidate for the county clerkship, from New Cumberland, was in Chester last evening, and attended the meeting of the town council. Mr. Bee-

WHEELING AHEAD BY ONE SCORE

Both Teams Played a Lively and
Very Interesting Game
Yesterday.

THE FINISH WAS EXCITING

And But for Errors at Inopportune
Times the East Liverpools Would
Have Come Out Ahead—Five Runs
By Visitors in First Inning.

Both teams played a pretty game yesterday, but the Wheeling boys played a little the prettiest and won by a score of 10 to 9. They not only got the most runs, but likewise the most errors.

The greatest trouble for the locals was making errors when they counted heavily for the visitors. Had they not lost their heads in the first inning there is no doubt that the game would have resulted far differently, and East Liverpool lovers of the game would have had the chance to boast that the local team had won from one of the strongest independent teams in the country.

It seems a shame to credit the loss of the game to Fred Heckathorn when one remembers that he is always in the game and is ever working with all his energy to win; but there is no getting out of it. He was responsible for the defeat. With two men on bases he let a ball go through his hands and allowed the visitors to score one. The ball was really a hard one to handle, but it was an error and it came at an inopportune time. The luck seemed to favor Wheeling only. Mahlin, their shortstop, made four of the rankest errors imaginable, but luck was with them.

The fact that the visitors were professionals brought a larger crowd than usual to the park, and when at different times in the game East Liverpool had a good chance for victory the fans went wild. The placing of a canvas at the top of the fence west of the grand stand had little effect upon the box car inhabitants. Somehow they succeeded in hypnotizing the train crew and thereby got the cars moved a short distance further down and so had the diamond in plain view. However, those who paid to get inside and who had been tormented for so many games by those perched on the "hoboes' home were spared that disturbance and the game was enjoyed.

Every inning was productive of excitement. At the beginning of the first inning the outcome looked a little dark for the locals, with five runs and four hits staring them in the face. But instead of giving up, they jumped into the game with all vigor and tried hard to land another scalp. Reark, the first man up, made the clouds brighten by pounding out a single, and although Berry flew out, the next man up played with the pitcher until rewarded with a short walk, and when J. Heckathorn came to the front with a clean hit the sun never shone brighter. It scored Reark and advanced Mock another base. The lone score was all that was landed, as Davis struck out and F. Heckathorn went out from pitcher to first.

The second inning was unprecedented for brevity, six men dying in that many minutes. Three struck out and the others went out to first without getting a ball out of the diamond.

Wheeling wanted to end the third as quickly, none of the team making a hit, but East Liverpool would not have it that way. The boys knew that the fans would be willing to sit a few minutes longer if rewarded by witnessing several men cross the plate. Two errors and one two-base hit were in their favor, and they swelled the total number of runs to 4.

Each scored one in the fourth with but a single feature, that being the blow given by Reark when he landed on the nose of the ball and sent it over in left field hunting for Grier, of the Windsor team. During the fifth and sixth the scorer was kept busy tabulating runs for the visitors, but they quit at that, and made nothing through the remainder of the contest.

Until the eighth the locals were lenient. They did not seem to be anxious, but when Fred Heckathorn hobbled to the batters' box and dropped one between the railings on the nearby hillside, enthusiasm was again aroused. At the end four hits and three runs had been received.

The last half of the ninth started off in a manner most commendable. With the score 10 to 8 East Liverpool was impressed with the fact that if it did anything it was then or never. The effort put forth was all that could be asked. J. Heckathorn bumped against one for three bases and finally scored. The next three men up tried to mimic him, but failed, and the game was over, but not until the professionals

RIVERVIEW CEMETERY

BUSINESS OF THE PAST YEAR REVIEWED AT LENGTH.

Total Interments For the Year 244—
Collections Amounted to \$11,746.

The annual meeting of the River-view Cemetery association was held this week, when the annual reports of the various officers were presented, and the business of the past year reviewed. The meeting was held in the offices of the First National bank, all the members of the association being present.

The past year the association granted permits for the interment of 244 persons, making a total up to the present time of 2,002 interments that have been made in the cemetery since the association began business. The report of the treasurer, N. G. Macrum, showed that during the year the association had collected \$11,746.83, while the expenditures were \$11,261.75, leaving a cash balance of \$485.08 on hand. There was added to the cemetery during the year 17½ acres, making the total area of the ground at present 90.65 acres, the total cost of which has been \$20,756.50.

The latest addition to the cemetery cost in the neighborhood of \$5,000, all of which has been paid.

John W. Vordrey was elected a member of the official board to fill the vacancy, caused by the death of J. N. Vordrey.

The following were elected to serve as directors for a term of three years, the term expiring in 1905: Noah A. Frederick, F. D. Kitchell, W. A. Harker, Christian Mettsch and J. M. Kelly. The old officers were re-elected—president, Hon. David Boyce; treasurer, N. G. Macrum; secretary, J. M. Kelly; sexton, M. Whitaker. The executive committee is composed of Hon. David Boyce, Col. John N. Taylor, Robert Hall, John C. Thompson and J. M. Kelly.

For sometime the association has been considering the plan of paving the main road leading into the cemetery proper, and this was one of the important matters that was considered at the meeting. However, this has been placed under the direction of the executive committee, and it is possible that some definite action will be taken on this matter in a very short time.

POSTOFFICE ROBBERS

Burglar Jim And His Pal Indicted at Columbus on Numerous Counts.

Columbus, June 6.—"Burglar Jim" Anderson, probably the most noted postoffice robber in the United States, is held in the county jail to answer to seven indictments, returned last evening by the grand jury of the United States court. Anderson, with his pal, Herbert Robey, is accused of having robbed nearly 25 postoffices in the central part of Ohio within the past nine months. He was caught after a long chase at Johnstown, Pa., and returned to this state without the formality of a requisition. Robey was arrested in Columbiana county, near Moultrie. Julius Bernstein, a pawnbroker of this city, was held to answer to 23 indictments for having disposed of the stamps which Anderson and Robey are alleged to have stolen.

The grand jury also returned an indictment against Russell Jimison, a mail carrier of Steubenville, who was charged with delaying mail and abstracting money from letters.

MORE BUSINESS IN STOCKS.

Larger Trade Thursday Than Any Day In the Week—Some Market Features.

New York, June 6.—There was more business in stocks yesterday than on any day of the week. The increased activity was a result of additional pressure to sell. The disposition to sell was not confined to any one portion of the list and was quite evenly distributed among the usually prominent stocks. The selling was not urgent, but was persistent, and gained a volume towards the latter part of the day. Probably the most effective single factor in the weakness

of the market was a general feeling of anxiety over the developments in the labor world.

The reports of continued heavy orders for all grades of iron products for delivery far into the future did not avail to relieve the heaviness of the United States Steel stocks and other iron and steel stocks. The selling of the grangers seemed to be due, to some extent to reports of too abundant rains in the southwest, and also to the falling back in the figures of receipts of corn. The late reaction in the grain markets after early strength did not change the weak tone of the grangers. Chicago and Northwestern was marked up 2 points on the announcement of the long heralded extra dividend on the stock but half of the gain was lost. Hocking Valley reflected disappointment over the declaration of only the former dividend rate. The large profit taking in Canadian Pacific at a total reaction of 4 points had a sympathetic effect on the whole list. Amalgamated Copper was depressed by the weakness of the market for raw copper and was not affected by a trade circular pointing out great improvement in the trade. The combined effect of various items of depression was a dribble of realizing all day which carried prices downward until the close, which was easy at the lowest.

QUAY FOR STATE CHAIRMAN.

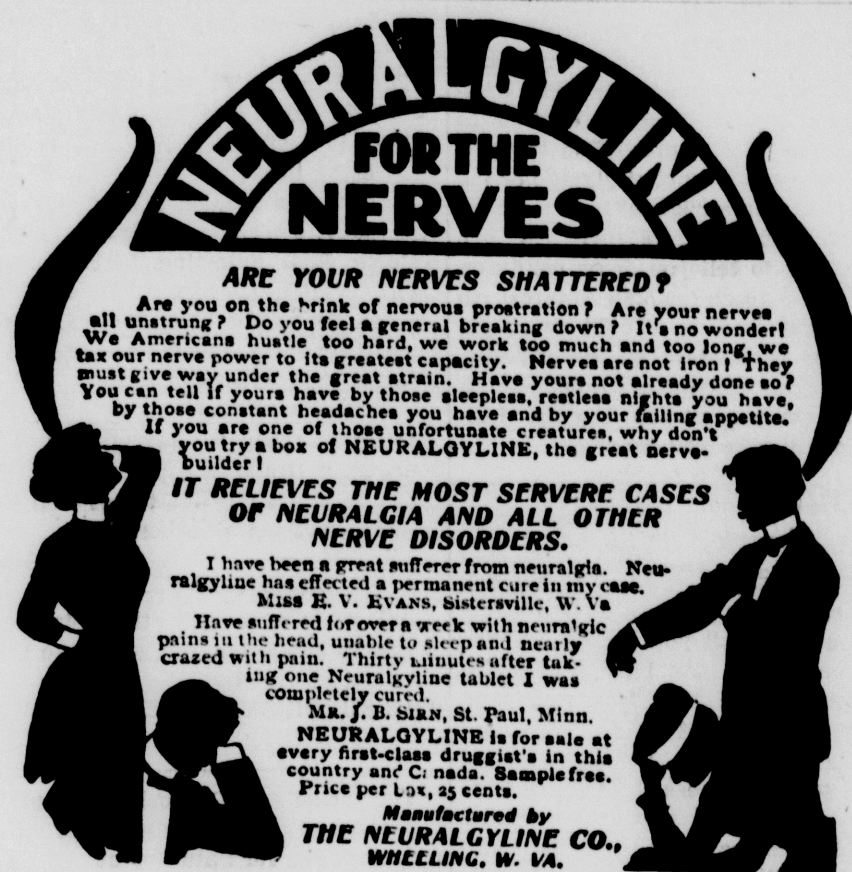

Wants It If Pennypacker Is Nominated—Reader Wants It if Elkin Is Named.

Harrisburg, Pa., June 6.—Hotels and public buildings all over the city were being decorated for the Republican state convention to be held in the Grand opera house next Wednesday for the nomination of candidates for governor, lieutenant governor and secretary of internal affairs. By reason of the spirited contest for governor between Judge Pennypacker, of Philadelphia; Attorney General Elkin, of Indiana, and ex-Lieutenant Governor Watres, of Scranton, the indications are that the attendance will be unusually large.

Headquarters have already been opened by the Pennypacker and Elkin managers, and it is expected that Colonel Watres will be here on Monday to take personal direction of his forces. Judge Pennypacker's interests will be in charge of United States Senators Quay and Penrose and Insurance Commissioner Durham, of Philadelphia. General Elkin will direct his own campaign, with the aid of Secretary of the Commonwealth Griest and other members of the state administration.

The state committee will meet on Tuesday to make up the roll of delegates and select the temporary officers of the state convention.

Senator Quay will be a candidate for state chairman if Pennypacker is nominated. Should Elkin be the nominee Bank Commissioner Reeder will again be a candidate for chairman. All of the party leaders and many of the delegates will be on the ground by Monday.

The reports of continued heavy orders for all grades of iron products for delivery far into the future did not avail to relieve the heaviness of the United States Steel stocks and other iron and steel stocks. The selling of the grangers seemed to be due, to some extent to reports of too abundant rains in the southwest, and also to the falling back in the figures of receipts of corn. The late reaction in the grain markets after early strength did not change the weak tone of the grangers. Chicago and Northwestern was marked up 2 points on the announcement of the long heralded extra dividend on the stock but half of the gain was lost. Hocking Valley reflected disappointment over the declaration of only the former dividend rate. The large profit taking in Canadian Pacific at a total reaction of 4 points had a sympathetic effect on the whole list. Amalgamated Copper was depressed by the weakness of the market for raw copper and was not affected by a trade circular pointing out great improvement in the trade. The combined effect of various items of depression was a dribble of realizing all day which carried prices downward until the close, which was easy at the lowest.

QUAY FOR STATE CHAIRMAN.

Wants It If Pennypacker Is Nominated—Reeder Wants It If Elkin Is Named.

Harrisburg, Pa., June 6.—Hotels and public buildings all over the city were being decorated for the Republican state convention to be held in the Grand opera house next Wednesday for the nomination of candidates for governor, lieutenant governor and secretary of internal affairs. By reason of the spirited contest for governor between Judge Pennypacker, of Philadelphia; Attorney General Elkin, of Indiana, and ex-Lieutenant Governor Watres, of Scranton, the indications are that the attendance will be unusually large.

Headquarters have already been opened by the Pennypacker and Elkin managers, and it is expected that Colonel Watres will be here on Monday to take personal direction of his forces. Judge Pennypacker's interests will be in charge of United States Senators Quay and Penrose and Insurance Commissioner Durham, of Philadelphia. General Elkin will direct his own campaign, with the aid of Secretary of the Commonwealth Griest and other members of the state administration.

The state committee will meet on Tuesday to make up the roll of delegates and select the temporary officers of the state convention.

Senator Quay will be a candidate for state chairman if Pennypacker is nominated. Should Elkin be the nominee Bank Commissioner Reeder will again be a candidate for chairman. All of the party leaders and many of the delegates will be on the ground by Monday.

NEURALGYLINE FOR THE NERVES

ARE YOUR NERVES SHATTERED?

Are you on the brink of nervous prostration? Are your nerves all unstrung? Do you feel a general breaking down? It's no wonder! We Americans hustle too hard, we work too much and too long, we tax our nerve power to its greatest capacity. Nerves are not iron! They must give way under the great strain. Have yours not already done so? You can tell if yours have by those sleepless, restless nights you have, by those constant headaches you have and by your falling appetite. If you are one of those unfortunate creatures, why don't you try a box of NEURALGYLINE, the great nerve-builder!

IT RELIEVES THE MOST SEVERE CASES OF NEURALGIA AND ALL OTHER NERVE DISORDERS.

I have been a great sufferer from neuralgia. Neuralgyline has effected a permanent cure in my case. Miss E. V. EVANS, Sistersville, W. Va.

Have suffered for over a week with neuralgic pains in the head, unable to sleep and nearly crazed with pain. Thirty minutes after taking one Neuralgyline tablet I was completely cured. Mr. J. B. SIMS, St. Paul, Minn.

NEURALGYLINE is for sale at every first-class drugstore in this country and Canada. Sample free. Price per box, 25 cents.

An Advantage of Armor.

"That medieval armor must have been very uncomfortable," said a visitor at the museum.
"Yes," answered the man with darned clothes, "but there was one satisfaction about it—a man could always take down a suit of it in entire confidence that the moths hadn't got into it."—Washington Star.

dishband, and boarding waiting cars will be taken to the park.

At 1:30 o'clock there will be competitive drills at the park, while at 3:30 a base ball game will be played between the Carnegie Athletic club, of Beaver Falls, and the West End Athletic club of this city.

At 5:15 a meeting of the general committeemen of all the castles represented at the outing will be held at the park for the purpose of deciding when the next year's reunion will be held.

In the evening at 8 o'clock there will be a gorgeous display of fire works, costing several thousand dollars. This will be in charge of Fazzoni Brothers, of New Castle, who have been at the park for several days making the necessary preparations for this event. The affair will last for several hours, and will be the largest display of pyrotechnics ever seen in this section.

One hundred dozen of souvenirs have been secured by the local committee which will be sold at the park to the visitors. They are very handsome. During the afternoon the music in the pavilion will be in charge of Prof. Nowling, while during the afternoon and evening on the lawn there will be several concerts by local bands.

The time of the departure of the trains on the C & P. road as given officially is as follows, East Liverpool time being used:

Bellaire and Steubenville, 8 o'clock; Allegheny, 9 o'clock; Salineville, 9:30 o'clock; East Palestine, 10:30; New Castle, 11:30; Cleveland, 12 o'clock. On the Panhandle branch the Greensburg train will leave at about 8 o'clock, East Liverpool time.

HEALTH BOARD MEETING

Tonight's Session Will Be Largely Devoted to Recommending New Sewers.

The meeting of the board of health called for this evening will be devoted largely to determining where sewers should be laid and to taking the necessary steps to have the work done. The board has under advisement the recommendation to council of sewers as follows: Thompson avenue, from Ravine street to the old reservoir; West Market street from the Diamond to the Horn switch; the extension from Monroe street to the Sixth street school; Green lane, which was condemned by the board five years ago; Oak street and Church street.

Nothing more than the recommendation can be done by the board, although it would be glad to take the responsibility and push the work speedily. It is understood that the board, sewer commission and the councilmen are in favor of the improvements, but are powerless to act until a petition is signed and presented by property owners. From a sanitary standpoint the sewers are an absolute necessity.

HEALTH BOARD MEETING

Tonight's Session Will Be Largely Devoted to Recommending New Sewers.

The meeting of the board of health called for this evening will be devoted largely to determining where sewers should be laid and to taking the necessary steps to have the work done. The board has under advisement the recommendation to council of sewers as follows: Thompson avenue, from Ravine street to the old reservoir; West Market street from the Diamond to the Born switch; the extension from Monroe street to the Sixth street school; Green lane, which was condemned by the board five years ago; Oak street and Church alley.

Nothing more than the recommendation can be done by the board, although it would be glad to take the responsibility and push the work speedily. It is understood that the board, sewer commission and the councilmen are in favor of the improvements, but are powerless to act until a petition is signed and presented by property owners. From a sanitary standpoint the sewers are an absolute necessity.

SURVEY NOW IN PROGRESS FOR IMPORTANT RAILROAD

Electric Line From Pittsburg to
Georgetown and Thence
to Cleveland.

ROUTE FULLY MAPPED OUT

On the South Side of the Ohio and
Will Be Continued Up
Little Beaver.

SHORTER BY TWELVE MILES

Than Any Route Now In Existence Be-
tween Pittsburg and This city—The
Surveying Corps to Move to the
Ohio Side by Monday.

From the evidence at hand it is plain that in a few years Pittsburg will be at least 12 miles nearer East Liverpool than it is at present. This statement is easily verified, if one will take a trip to Georgetown, see and ask the many surveyors that are working in that vicinity the object of the work that they have been doing for the past two months.

On a level grass spot, two miles south of Georgetown on Big Mill creek is the camp of a corps of surveyors, twelve in number, occupying four tents, with an eating tent, three negro waiters, a cook, wagonman and helper, two large wagons, and as many horses. These men, under direction of Surveyor Barnes, and another gentleman named Morrissey, have been working for the past two months on the preliminary survey for an electric railway from Pittsburg to Cleveland, and by tomorrow they will complete their work on the south side of the river.

Their camp will then be moved to the Ohio side and the survey for a road up Beaver creek will be commenced, and it is said by those who are in position to know, that the surveyors have at least 30 days' more work ahead of them. A jolly set of fellows they are. Without any sounding of trumpets these men have been working constantly, and many of the farmers in the vicinity of the line followed by the engineers thought the Wabash railroad proposed to traverse that territory, but they, as well as the people of Georgetown, have been laboring under a delusion.

The survey now being made is for an electric road, and if the grades in this part of Beaver county are found to be favorable, there is ample capital back of the project to have the road completed within a reasonable time. The surveyors, especially the men in charge of the corps of engineers, are reluctant to talk about the work that has already been done, though the cook and helpers about the camp have made the statement that the work is being done in the interests of the Wabash railroad. Electricity and not steam will be the motive power of this road, should it be built.

A reporter for the News Review visited the engineers' camp this morning, but while not many facts concerning the work could be gleaned, enough, however, was learned to prove that the road was to be run by electricity, and the termini would be at Cleveland and Pittsburg. Two months ago these men began to survey for a preliminary grade for the proposed road at Six Mile Ferry, just opposite Glenwood, Pittsburg. Their camps have been moved from one place to another, until the last camp on the south side of the river has been located, and that is soon to be broken.

A gentleman who seems high in authority among the surveyors, would make a good government official, for he is certainly an excellent interviewer. All sorts of questions were asked the reporter about the electric roads of East Liverpool and also of Chester: how council would act if another road would apply for a franchise to enter the city; the knowledge of any rights of way being taken up Beaver creek by another road; the advisability of building a road down on the Pennsylvania side of the river to connect with the East Liverpool and Chester railways; the matter of building a bridge at Smith's Ferry and Georgetown, and more of the same sort.

When asked for a plain statement of the work that had already been accomplished, the backers of the project and the destination of the engineers,

the gentleman at the camp gave the following:

"I am but a tool. We have been working on the scheme for a few weeks, and will move to the other side of the Ohio river about Monday."

Where the survey for the continuance of the road on this side of the river would be commenced the gentleman would not state. "This work may go through and it may not. Further, you must excuse me from talking, although I would be pleased to accommodate you with all the information possible. But sometimes a man can't talk, you know."

The gentleman then left the camp

TAYLER DECLINES

FORMAL NOTICE OF WITHDRAWAL AS CANDIDATE.

Chairman Fawcett Says the Congressional Convention Will Meet in July.

Canton, June 7.—Judge Jacob P. Fawcett received a letter from Congressman Robert W. Tayler, Wednesday evening, containing the formal notification of his withdrawal as the Republican candidate for congress from the Eighteenth district. Judge Fawcett is chairman of the congressional committee, and for this reason the declination was sent to him. The letter is dated Washington, D. C., June 3, 1902, and is as follows:

"Dear Sir—I hereby respectfully decline the nomination as the Republican candidate for congress from the Eighteenth district of Ohio. Yours respectfully, 'R. W. TAYLER.' Judge Fawcett said that while the members of the congressional committee had as yet held no meeting, they had communicated with each other by letter. He said that the convention to nominate a candidate to succeed Mr. Tayler would be held either on July 23 or July 30. The members of the committee have agreed that one of these dates shall be selected for holding the convention. Judge Fawcett said that the committee had not reached a decision on the place of holding the convention. He said that Salem, Canton and Alliance were all mentioned and that one of these towns would likely be selected. He would prefer to have the convention held in Stark county.

He endeavored to prevent her entrance and she attacked him, biting his arm and striking him on the head with a chair.

The merchants here have been notified by Mr. Graham that he will not pay debts contracted by his wife.

Interesting Controversy Over the \$25,000 Estate of Abraham Hartley.

Lisbon, June 6.—(Special)—Miss Lina Hartley and Mrs. Mary E. Burris, nieces of Abraham Hartley, late of Salineville, have been appointed administratrixes of their uncle's estate, with \$16,000 bond. His estate is quite large, being valued at about \$25,000.

No less than 40 heirs claim an interest in the property and some of them objected vigorously to the appointment of Miss Hartley and Mrs. Burris. They claim that Mr. Hartley made a will in which he gave them a share of his estate and that these ladies know more about the whereabouts than they profess.

CASH BOX BROKEN OPEN

In Telephone Booth, And a Portion of the Contents Abstracted—Everybody Thought a Telephone Company Employee Was Making Repairs.

One of the most daring thefts ever committed in East Liverpool occurred last evening between the hours of 9 and 10 at the Thompson house in the presence of at least 15 guests, all of whom were eye witnesses to the deed. The work of the perpetrator, who was an unknown man, was done so smoothly that no suspicion was aroused and he was allowed to finish the job and leave without interference.

In a bold manner the man walked into the hotel and without inquiry or hesitation entered the long distance telephone booth, on the north side of the hotel office, a few feet from the door opening on Broadway. In this booth there is an automatic collecting device, attached to the telephone. Quite often large sums of money are in the box. Knowledge of this fact prompted the unknown individual to the operation.

With a file he did the work. Using it as a pry he not only opened the box, but completely demolished it. Had there been much money the cash receptacle his efforts would have been well rewarded. Luckily, however, for the telephone company, only \$2.50 had been dropped in and of that he got but 95 cents. How he missed the remainder is unexplainable.

Almost an hour was consumed by the main in completing the job. He was interrupted but once and then only for a second. A guest went to the booth and opened the door, intending to use the line, when he saw the man at work, but supposing that he was in the employ of the telephone company, turned away, shut the door and let him continue.

The hotel clerk this morning happened to look into the booth, and noticed the conditions. He immediately gave the alarm, but it was too late. The man had done his work and made himself scarce, leaving no clue save a file broken into three pieces and blood spattered in the box. It is supposed that he cut his finger when the file broke.

SALEM MAN ARRESTED

Accused of Jumping Board Bill—Irene Meyers Shipped Out of Town.

Patrick Carroll, of Salem, was the only occupant of the city jail this morning. He was arrested last evening, Salem authorities, who telephoned Chief Thompson Wednesday that he had left that city owing a board bill of considerable size. He will be taken to Salem tonight or tomorrow.

Miss Irene Meyers, incarcerated for being drunk, was released last evening and shipped to Steubenville, where she claims to have relatives. The township trustees paid her fare.

RIVER IMPROVEMENTS WILL SOON BE BEGUN

Congressman B. B. Dovener, of Wheeling, Col. James M. Porter, of New Cumberland, and ex-Senator O. S. Marshall, of New Cumberland, were in Chester yesterday, the congressman coming to visit his Hancock county constituents.

While here Capt. Dovener gave a News Review reporter an interesting account of the status of the river and harbor appropriations for this section. The total appropriation for the Ohio river is about \$66,000,000, for dams No. 2 to 11, inclusive, for dam No. 8 at Walker, \$50,000 has been appropriated for the purchase of the site and \$250,000 for the erection of the locks. The whole improvement at that point is to cost \$550,000.

For dam No. 7, below Smith's Ferry, \$25,000 is appropriated for purchase of the site. The improvement there

BRICK COMPANY GETS A CHARTER

Local Corporation Formed With \$30,000 Capital to Engage in the Business.

MINE HAS BEEN PURCHASED

And a Costly Plant Will Be Erected at Once—Its Capacity Will Be 4,000,000 Brick a Year, All to Be Sold Here.

A certificate of incorporation has been issued by Secretary of State Laylin to the East Liverpool Brick Manufacturing company, which will manufacture, buy and sell brick, tile, terra cotta, earthenware and crockery and mine, mill and deal in clays, minerals and other materials.

The capital stock is \$30,000 divided into 300 shares. The incorporators are D. J. Wallace, R. E. Hill, Harvey McHenry, John Horwell and Robert Hall.

This company has been organized about a week, the need of an up-to-date brick yard being evident in this city for many years. The company has purchased 11 acres of land in which there is a 15 foot vein of clay, from the old Globe Pottery company, paying for the property the sum of \$5,250 in cash. The sale was made in order that the old stockholders of the Globe Pottery company might close their old books.

The plant will cost several thousand dollars, and while the contract for the new building will be likely let to Harvey McHenry, the contracts for the machinery have not been placed. Several men have been put to work making an entry into the lower vein of clay on this property, the opening being just below the mine from which the Globe Pottery company secured its clay when that concern was manufacturing yellow ware.

The capacity of the new plant will be in the neighborhood of 4,000,000 brick annually, all of which, it is expected, will be used in construction work in this city.

AGAINST SON-IN-LAW

Owen Smith, of Salineville, Gets a Judgment for \$864.

Lisbon, June 6.—(Special)—Owen Smith, of Salineville, yesterday secured a judgment for \$864.02, his claim in full against his son-in-law, Adolph Herter. Mr. Smith claimed that the sum was due him in part payment for 74½ acres of land in Franklin township and two lots in Summitville which he had sold to Herter. Herter claimed that he had paid Smith in full.

This case was tried before, when the jury returned a verdict for \$600, which was set aside for the reason that it should have been for the full amount claimed or nothing.

ONE-STATE OFFICER

Of the Protected Home Circle to Be in East Liverpool—Delegates Return.

Frank D. In company with these delegates J. C. Allison, representing Stratton circle, of East Liverpool; Charles Snediker and Henry Henderson, of Wellsville circle, and William Wilhelm, representing the Salineville circle, returned.

representing Stratton circle, of East Liverpool; Charles Snediker and Henry Henderson, of Wellsville circle, and William Wilhelm, representing the Salineville circle, returned.

The delegates report an excellent meeting, and succeeded in having one of the state officers located in East Liverpool, that of James C. Allison, who was elected grand sentinel. Charles Craig, of Canton, was elected grand secretary and William Bell, of Alliance, was elected grand treasurer. The meeting next year will be held at Dayton, and it would not be surprising to see the state meeting held in East Liverpool the year following.

DANGEROUS BRIDGE

THIRTY FEET HIGH AND WITHOUT ANY RAILING.

Citizens Will Petition Council to Have Carpenter's Run Structure Made Safe.

Residents of Sheridan avenue and Sunnyside will shortly present a petition to the council asking that steps be taken to insure the safety of those using the large stone culvert at Carpenter's run where it crosses California hollow.

The spot is an extremely dangerous one and has been so since the erection of the bridge about two years ago. The structure is perhaps 50 feet long, and at the center of the span not less than 30 feet high. The bridge is sufficiently wide for any use, but there are no railings along the sides.

The necessity for some sort of protection on either side of the bridge is at once apparent; for, in case a horse became frightened while on the bridge nothing could prevent it from going over the edge, talking with it anything to which it might be attached. A number of narrow escapes have occurred and the citizens are determined that something shall be done at once.

The locality is particularly dangerous at night when any one not acquainted is in very great danger of making a misstep and plunging over the edge. However, this danger has been lessened recently by the placing of a lamp at the bridge.

The residents believe a substantial railing should be erected on each side of the structure, extending its entire length.

The bridge was built by the East Liverpool Railway company and the cost was in the neighborhood of \$4,000, but it was never finished. The franchise granted to the company for its Sheridan avenue extension calls for railings to be built the entire length of the structure on either side. It is hoped that the petition can be completed, presented to council and favorably acted upon before anything of a serious nature occurs, as damages could easily be collected in case of accident.

FOR THE UNION LABEL

A Chicago Man Here to Encourage Its More General Use.

D. A. Kistler, of Chicago, arrived in the city today and will spend some time interviewing the heads of unions in the interests of a more general use of the union label on all classes of finished product.

Mr. Kistler is a member of the Traveling Salesmen's union, one of the first organizations in the United States to encourage the need of labels on goods produced by union labor. With Typographical union No. 16, of Chicago, the traveling salesmen began the difficult task of inducing the owners of the larger publishing houses to adopt the label.

Less than one year ago of the 40,000,000 publications in book form turned out in the country not one had the label. Through the efforts of Mr. Kistler and his associates 182,000 of these now contain the label, and the publishers pronounce the move an excellent one.

No Court Next Week.

Lisbon, June 6.—(Special)—Common pleas court adjourned today to Monday, January 16. No court will be held next week, because those interested in many of the cases assigned are not ready for trial. The assignment for the eighth week has been revised and includes many of the cases which were set for next week.

Annual Reunion at Rock Springs Park to Be a Great Affair.

SEVENTY RAILROAD COACHES

Will Bring the Visitors Who Are to Come Over the C. & P. Road.

FROM 10,000 TO 12,000 VISITORS

Expected at the Park Tomorrow—A Street Parade Will Precede an Interesting Program—Eagles of Three States Are to Participate.

The fifth annual reunion of the Knights of the Golden Eagle of three states will be held in this city tomorrow. From the statements made by the committee in charge, it is estimated that not less than from 10,000 to 12,000 visitors will be in the city, which will certainly be the largest picnic that has ever been held at Rock Springs park. There will be a great

The Castle's Emblem.

crowd, and all day, in fact until midnight, the time set for the departure of the last train.

At the annual outing last year the Eagles decided upon Rock Springs park for the outing this year, and a committee composed of Edward Larkins, George Hales, Thomas Simpson, Joseph Smith and Thomas Lowmes, of Hope castle No. 23, was appointed from the local lodge to look after the reunion. For a year they have been working like Trojans to make the affair a success, and if the weather man gives a fair day, it will be the greatest ever seen in East Liverpool. Every detail, no matter how small, has been carefully looked after by the committee, and great credit is due its members for the manner in which they have done their work.

From an official of the C. & P. railroad it was learned this afternoon that seven trains, bringing 70 coaches and a total of almost 5,000 persons, would come to East Liverpool between the hours of 9 a. m. and noon.

The following statement is official of the trains that will be handled on the local railroad:

From Salineville, 6 coaches, 350 passengers; Bellaire, 8 coaches, 400; Steubenville, 6 coaches, 300; Cleveland, 10 coaches, 600; East Palestine, 14 coaches, 1,000; New Castle, 12 coaches, 850; Allegheny, 14 coaches, 1,200; Greensburg, Pa., 12 coaches, 1,000.

Other trains are expected to arrive at Chester on the Panhandle road, although so far only one train has been scheduled there. This may be changed during the day, and notice sent that additional trains will arrive.

This will be by far the largest picnic crowd that will be at the park during the season. The East Liverpool & Rock Springs Street Railway company, in order to prevent accident in the central part of the city and that all visitors may be handled properly, will run cars from the park to the corner of Third and Washington streets only. There will be from 10 to 12 cars on the road all day, and it is the intention of the company to handle not less than 2,500 passengers an hour.

The committee in charge of the reunion has arranged the following program for the day: Manley's and Haines' band will parade the streets during the morning, and at 6:30 one of the bands will leave the Diamond in a special car, going to the East End, thence to Wellsville and thence to the Diamond. This is for advertising purposes. At 11 o'clock there will be a grand street parade, which will form on Fifth street, right resting on Broadway. The route of the parade will be as follows:

From Broadway to Sixth, to Monroe, to Fourth, to Broadway; counter march to Market, to Second, to Broadway, to Third. There the parade will

EAST END TROUBLE OVER GIRL RESULTED IN FIGHT

A Very Warm Time at a Social Function in Sandy Bottom.

A GUEST KNOCKED DOWN

Rendered Unconscious And Given Serious Cuts And Bruises—Police Investigating And Several Arrests Are Likely to Follow.

Clothed in the uniform of a private in the United States army, Herbert Springer, employed at Laughlin No. 2, became involved in a quarrel last evening at a hop given at the Hilton residence in Sandy Bottom. This morning he is walking the streets with his head in bandages, a deep cut on the crown of his head and also a deep cut over his left eye. He is also feeling very sore. For several days this dance has been looked forward to by the young men of the East End, especially those residing in Chaffinville and Sandy Bottom, as the leading event of the season.

There is every reason to believe that the affair was quite successful, as far as fighting was concerned. During the early part of the evening Springer, in company with several friends, told of the dance they were going to and the good time that was expected. Finally the dance was started, and dressed in his uniform, Springer went to the dance and commenced to enjoy himself with his friends.

According to the story told by Springer to his friends he was about to shake hands with a friend when he was struck on the head, and that was all he knew. It is said that most of the fighting was done by a young man named William Carl, and after Springer was knocked to the floor, it is alleged he was severely kicked, but by whom he does not know.

He was removed to the office of Dr. Davis, where seven stitches were required to close the cut on the back of his head and four stitches were placed in the cut over his left eye. Springer resides on First avenue, just in the rear of the East End fire station. It will be several days before he will be able to resume work.

The officers of the East End are making a thorough investigation of the fight, and if sufficient evidence can be found a number of arrests will be made.

By those who claim they are in a position to know the statement is made that Springer received a terrible beating, and that the trouble was over a girl. For a while it was feared the man was dead, as he was reported unconscious for some time.

Not many weeks ago there was a dance given at a home in Chaffinville, and during the progress of the festivities one of the merry-makers pulled a gun from his pocket and commenced to make trouble. Such dances will be looked after by the East End police in the future, as more than one complaint has been made about the actions of some of the people who attend these affairs.

The Opening a Success.

A well attended meeting of Ohio Valley council No. 23, O. U. A. M., was held last evening in the rooms in the East End. It was the first session held in this hall and the opening was a success in every particular. Luncheon was served at a late hour to the families of the members. This council is planning a visit to the General George H. Thomas council, of East Liverpool, which will likely be made some time next week.

STRUCK A GOOD WELL

Fergus Bros. Have One of the Best Yet Struck Near Smith's Ferry.

In the Smith's Ferry old field, Fergus brothers, of Beaver Falls, have completed drilling their latest well, and the well have been flowing at the rate of 35 barrels a day, which is claimed to be the best well that has been brought in in that section in recent years. The pumps will be applied very soon, and it is expected the well will produce at least 50 barrels a day.

The John Rayl Co., of East Liverpool and Wellsville, commenced drilling on its No. 3 well, in this field, Wednesday. The men in this company pooled about \$1,800 and the two wells that have been previously drilled proved to be dry holes. It is thought the company will meet with better success in its No. 3.

NEW SCHOOL HOUSE

Georgetown Is Erecting One That Will Cost Not Less Than \$3,000.

Georgetown is putting on airs. That beautiful little village is to have a new school house that will cost not less than \$3,000. The contract has been let and the excavating for the foundation has been completed, lumber and stone have been hauled to the site, and when the new school term opens the children of that town will be taught in a new school house.

The old building has been found to be too small for the number of children. The new one will be two stories, contain from four to six rooms, and will be frame. All modern improvements will be used and the contract calls for the building to be completed by September.

COST HIM JUST \$1

Traveling Salesman Obligated a Small Boy And Paid for It.

A salesman for an East Liverpool grocery house was in the East End yesterday afternoon taking orders. While passing along Mulberry street a small boy with a bat and ball in his hand asked the salesman to "swat him one." Trying to please the youngster, the salesman hit the ball as hard as he could, knocking it through a store window, breaking the glass.

The salesman dropped the bat at once, went over to the store where the broken window was and paid \$1 for a new light. The salesman vowed he never more would try to please the small boy by playing ball in the streets.

Got a Bad Fall.

Lawrence Allison, while working on a scaffold about the new residence of Walter C. Supplee on Ohio avenue, received a fall which caused him to feel rather sore this morning. As it was his left arm was badly sprained and his back was severely scratched.

EAST END AFFAIRS.

A little child of Mr. and Mrs. Hendricks, of First avenue, is very ill with the measles.

At Georgetown tomorrow the club of that place will cross bats with the Freedom (Pa.) team.

A game of base ball will be played at Columbian park tomorrow afternoon between the Oakland Athletic club and the Hill Tops. A good game is expected.

J. Sheenan, who has been in business on Mulberry street for several months, has disposed of his interests and has removed his family to Wellsville. He will enter the mercantile business in that city.

Owing to a death at the residence of Mr. and Mrs. Archie Searight, on Pennsylvania avenue, last evening, the meeting of the East End branch of the Prohibition Alliance was deferred for a fortnight. A number of new members will be obligated at the next meeting.

HANNA FOR PANAMA

Advocates This Canal Route In
Speech For the Spooner
Amendment.

GIVEN VERY ATTENTIVE HEARING

Mr. Mitchell Urged That Unless
Nicaragua Route Was Determined
Upon by Congress It Would Mean
Perhaps Ultimate Defeat of Project.

Washington, June 6.—In further consideration of the isthmian canal project the senate heard yesterday two speeches, neither of which was completed. Mr. Hanna, of Ohio, spoke in favor of the Spooner amendment, conferring on the president authority to purchase the rights of the Panama Canal company if a valid title could be obtained, otherwise he shall decide upon the Nicaragua route. Mr. Mitchell supported the Hepburn bill for the construction of the canal by the Nicaragua route. Seldom has a senator been accorded a more attentive hearing than that given Mr. Hanna. The Panama route he considered much to be preferred to the Nicaragua route, as it provided an interoceanic waterway much shorter and one that could be traversed at less expense than the Nicaragua route. He maintained that the United States was to build the canal to accommodate the commerce of the world, and said that fact must be taken into account.

Mr. Mitchell urged that unless the Nicaragua route was determined upon definitely by congress it would mean the indefinite postponement and perhaps the ultimate defeat of any canal legislation. He insisted that the Nicaragua route was entirely feasible and practicable, while the Panama route involved difficulties which were scarcely to be surmounted.

The senate passed the military academy appropriation bill providing for extensive improvements at West Point.

CHALMETTE CAMP WAS LEGAL.

No Violation of Neutrality—Accusations of Enlistments Not Proven.
Report Sent to House.

Washington, June 6.—President Roosevelt, in response to a resolution of inquiry, with a letter, transmitted to the house the report of Colonel Crowder, on the British mule camp at Chalmette, La. He also gave the substance of a letter written by Secretary Hay to the governor of Louisiana, dated June 3.

Secretary Hay in this letter sums up the main facts as found by Colonel Crowder and also gives rules of international usage respecting the sale of goods to parties at war. Mr. Hay says the serious point in the charges, submitted by Mr. Pearson and by the Boer legislative committee of Philadelphia, was that the British authorities had enlisted men in this country for service in South Africa. The government made particular efforts to find out if there was any basis for this charge, but Mr. Hay says that Colonel Crowder's report shows that not a single instance could be discovered by him. Moreover, the attorney general, on May 12, requested the Boer legislative committee for evidence which would substantiate this charge, but received no information from them on this point. He further also says in part:

Chalmette Not Military Camp.

"What has been found is that certain officers of the British army, acting in the capacity of purchasing agents and inspectors, have been engaged in the work of buying, collecting and inspecting horses and mules at different places in the United States and shipping them from Chalmette to South Africa. There have been 13 of these officers. The British government some time since ordered the recall of all of them. The men employed under them have all been Americans. Chalmette was not a military camp or post nor a base of military supplies, as the terms are defined by standard military authorities, nor in any sense save such as would make a flouring mill or a packing house a base of military supplies. If flour or canned meat were shipped from either through a series of months to any belligerent power Chalmette was simply a shipping station for mules."

Mr. Hay next addresses himself to the law in the matter, in part as follows: "He says our duty has been laid down again and again. He quotes from the declaration of Thomas Jefferson when secretary of state at the time of the hostilities between England and France:

Citizens Free to Sell Goods.

"Our citizens have always been free to make, vend and export arms. To suppress their callings because a war exists in foreign and distant countries in which we have no concern hardly would be expected."

Similar declarations by Alexander Hamilton, President Pierce, Chief Justice Chase and President Grant are cited.

Colonel Crowder, in part, at one point says that the only enlistments were a few muleteers, and this against the orders of the British government.

NERVOUS EXHAUSTION

An Every Day History—High Strung, Nervous, Excitable, Constant Headaches, No Rest at Night, Heart Weak, Appetite Poor, Loss of Weight, Strength All Gone.

Read the following:
Mrs. G. L. Yager, of No. 152 Broadway, East Liverpool, Ohio, says: "Dr. A. W. Chase's medicines are all good. Past experience with them led me to use the doctor's Nerve Pills. I got them at Larkins' drug store, as I was nervous, run down, felt miserable and the heart action was weak and irregular. The medicine made me strong and my nerves steady. The heart action regular and strong, and altogether a different person, as I feel well and healthy again."

Dr. A. W. Chase's Nerve Pills are sold at 50 cents a box at dealers or Dr. A. W. Chase Medicine company, Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

MILES TO BE TRIED

SAID TO HAVE BEEN SUMMONED
BY ROOSEVELT.

Alleged to Have Betrayed Official Secrets—Passed Through Kansas City For Washington.

Kansas City, Mo., June 6.—The Journal was expected today to say in part:

Lieutenant General Nelson A. Miles commanding the army, passed through Kansas City last night on his way from Fort Riley to Washington, called there by President Roosevelt and threatened with an immediate court martial on a charge of having betrayed official secrets.

A Journal reporter read to General Miles a special dispatch saying that he was suspected in the White House of having furnished details of the scandal involving Lieutenant Arnold to Senator Culberson. General Miles comment was:

"Senator Culberson seems to have made an answer as full as one could make, and as explicit as Senator Beveridge or any one could demand."

"But, for yourself, General?"

"I repeat that Senator Culberson seems to have made the reply for which you are asking."

"There is a second dispatch, General," was then remarked, "to the effect that you are peremptorily ordered back to Washington to face charges."

General Miles would make no reply to this question.

Denied by Strike Leader.

Youngstown, O., June 6.—President James McMahon, of the Blast Furnace Workers and Smelters' union made a positive denial of the story sent out from Pittsburgh yesterday in which it was stated that he had ordered the unions to withdraw the demand for an eight-hour turn and make the best settlement possible.

Wintering in Colorado And Utah.

The climate of Colorado and Utah has long been world famous, but it is only within recent years that attention has been given to the delightful winter climate of these states. Today physicians all over the United States send their patients to Colorado and Utah to escape the rigors of eastern winters and to benefit by her invigorating atmosphere and health-giving sunshine.

It is not necessary to add an elaborate argument—the conclusion is self-evident and inevitable. The winter climate of Colorado and Utah on the whole presents advantages for the invalid and the pleasure-seeker that cannot fail to command attention.

An erroneous impression prevails that because the Rocky mountains have a high elevation the mercury in the thermometer drops down below zero in the winter season and stops there, and that the snow mounts up with the altitude. The fact is that the average precipitation of moisture in the lowlands of the mountain region during the entire year is only 14.15 inches. With such average precipitation there is practically no danger of snow blockades on the railroads, save at a few points exposed to drifts and these points have been amply protected. This is especially true of the lines of the Denver & Rio Grande and the Rio Grande Western between Denver and Ogden at all seasons of the year. Facts speak for themselves, and the fact is that travel over "The Scenic Line of the World" has gone on with less interruption from snow blockades during the last ten winters than it has upon the majority of railroads in other localities which are popularly supposed to be more free from such delays than the mountain systems. Every East Liverpool citizen is
proud of his city's progressive spirit,
its business enterprise and general
prosperity. With all this, there are
other things which cannot be con-
templated with either pride or satisfac-
tion. Dirty and littered streets; paved
thoroughfares blocked up for half their
width by those who have chosen to use
them as dumping grounds; broken
sidewalks and uneven pavements; the
absence of signs to indicate the names
of streets and numbers on the houses
—all of these things are disagreeable
to residents and a positive injury to
the city's reputation in the eyes of
strangers and visitors. It is time to
seek a remedy and to prove that East
Liverpool is up-to-date in everything.

The captain of a steamer that ar-
rived at Philadelphia found land in the
Caribbean sea where there were no
islands before. There was a large
island afloat, populated by monkeys
and birds, but without human in-
habitants. It is supposed to have broken
off from Martinique or some other
land during the recent convulsion.
Mont Pelée is likely to keep geograph-
ers as well as other scientists guess-
ing.

The building of an isthmian canal is
purely a business proposition. There
should be no politics in the discussion
of the question. The time has arrived
to decide it, and congress, having set
about the task, should not abandon it,
until all the preliminaries for starting
the work have been arranged. The na-
tion was never in a better position for
building a canal; never better able to
protect it after it is built. The work
should be hastened.

The national president of the Wo-
man's Relief corps has issued a call
for a general observance of flag day,
Saturday, June 14, by schools and pa-
triotic organizations. Any exercises
calculated to increase respect for the
flag and to educate the youth of Amer-
ica as to its true significance deserve
to be encouraged.

If surveying would have accomplish-
ed it, Columbiana county would have
been covered with a network of trolley
roads and other railroads long ere
this. Everybody will be anxious for
tangible results from the survey for
a railroad now heading this way from
the other side of the state line over in
Beaver county.

A man who is too timid to be out-
spoken in condemnation of lynching is
not fit to be president. And yet, be-
cause President Roosevelt expresses
his opinion on the subject, certain
southern gentlemen are condemning
him. Their attacks will merely en-
hance the president's popularity.

Illinois Republicans will congratu-
late themselves anew on having
dropped Senator Mason after reading
his speech on the Philippine bill. Mr.
Mason represents himself, and no-
body else, with great zeal.

Col. Lynch, an Irish member of par-
liament, who is accused of having
fought with the Boers, wants to prove

his undoubted courage by resuming his
seat in the house of commons. The
colonel is evidently in search of more
fighting, and pretty sure to find it.

Democrats are turning to David B.
Hill as a presidential candidate. The
last time Hill figured in politics was
in 1894. He was then nominated for
governor of New York and was beaten
by 156,000 plurality.

Democratic newspapers in Ohio con-
tinue to be filled with tales of Repub-
lican dissatisfaction. The lack of har-
mony, as usual, exists in their fertile
imaginings, and there only.

The Democracy of several states,
having already invited William J.
Bryan to take a rear seat, now shows
a disposition to throw him out bodily
unless he compiles.

Representative Sibley, of Pennsylv-
ania is right. This is a great country,
but it has no room for anarchists.

That Russian volcano that throws
nothing but mud might appropriately
be renamed Mt. Tillman.

The army mule is not a good Demo-
cratic issue, now that the Boer war is
over.

General Miles is suspected of talking
again.

OBITUARY

Mrs. Eliza Troup.

Mrs. Eliza Troup, aged 66 years, died
at the home of her niece, Mrs. Archie
Searight, of Pennsylvania avenue, East
End, last evening at 9 o'clock, very
unexpectedly, from cancer. The re-
mains will be taken to Glasgow church
at Smith's Ferry, tomorrow afternoon,
and after the services there, to her late
home in Smith's Ferry, whence they
will be taken Sunday morning to
Raccoon cemetery. She is survived by
her husband, whose age is about 87
years. Her only son, Dr. White
Troup, died several years ago at Win-
tersville, a few miles back of Steu-
benville, in Jefferson county. He at
one time was a candidate for state
senator, and was well known in this
part of Columbiana county. Mrs.
Troup has been at the home of Mrs.
Searight for two weeks, and soon af-
ter she was brought to the East End
there was quite an improvement in her
condition. Her death was very sud-
den.

Mrs. J. N. McCullough.

Mrs. Rebecca T. McCullough, wife
of John N. McCullough, late president
of the Pennsylvania railroad com-
pany, died at the family home in Al-
legheny Wednesday night. Mrs. Mc-
Cullough was born on a farm near
Wellsville, and was married to J. N.
McCullough in 1852, and resided in
Wellsville until the family removed
to Allegheny about 35 years ago. She
is survived by one daughter, Mrs.
Harry Darlington, of Allegheny. The
interment will be made beside the re-
mains of her husband in the family
burying ground in Spring Hill cem-
etery, Wellsville, tomorrow.

POTTERY NEWS

Once more the story of a combina-
tion is going the rounds. This time it
is stated that manufacturers and cer-
tain promoters will confer regarding
a consolidation about the last of the
month. Early in May, just one month
ago today, the printed proposition of
Messrs Irwin and Trainer were re-
ceived in this city by the several manu-
facturers. It seems that it generally
requires about 30 days for a new com-
bination story to go the rounds. How-
ever, everything is worth watching,
no matter how slight or little the rum-
or may be.

The members of the committee
which had charge of the annual Bro-
therhood outing, it is expected, will
have their report ready by Saturday
evening. There are several details
yet to be gone over, and as soon as
these are completed the report will
be ready. It is expected that the Bro-
therhood will clear between \$500 and
\$700 on the affair, which is quite an
increase over the outings of other
years.

It is stated that William Mayer, one
of the best known dippers in the city,
and a resident of Derby Road, will
again become a resident of England,
and is thinking of removing his family
to that country. Mr. Mayer could not
be seen today to have the statement
verified. Mr. Mayer has been employ-
ed at the McNicol plant for some time,
and is one of the steadiest workmen in
the trade.

Quite an improvement is to be
made at the plant of the Edwin
M. Knowles company. The concern
has been in business but a short time,
but still it has been afforded a good
trade. It is now the intention to erect
two new kilns, which will increase the
capacity considerably. Work on the
improvement is expected to be started
within two weeks.

The new plant of the Anderson man-
ufacturing company, which will be
erected at Trenton, will cost in the
neighborhood of \$15,000. The company
was formed but recently, and will con-
duct a special pottery decorating busi-
ness, and "will deal in buy, sell, trade
in any and every kind of earthenware."

James Green, a kilnhand at the Di-
amond is the proud father of a daugh-
ter, which came to his home on Wed-
nesday evening. Mr. Green is now
the father of six children. He present-
ed the crew with which he works with
a box of cigars.

The following locals will meet in
regular session this evening: Kiln-
men's local No. 9; warehousemen, No.
48; Dippers, No. 18, and packers, No.
25. Each meeting, it is said, will be
filled with interesting discussions.

In attempting to give the public
some pottery news a local paper seems
to have gone over the files of the News
Review, culling thereby much matter
that has been published in this paper
from a week to a month ago.

Statistician John Wood, of kilnmen's
local No. 9, yesterday measured sev-
eral of the new kilns at the recent ad-
dition at the Laughlin pottery.

(Continued from First Page.)

for the field, and during the afternoon
proposed to go to Pittsburgh.

On the Hookstown road from
Georgetown can be noticed stakes
driven in the road, some on the east,
others on the west side of the road.
These stakes are of common lath, and
each is numbered. The stakes are set
as far as Georgetown, and the engi-
neers are now working on the hillside,
just east and above the stakes that
were placed in the road a few days
ago. Bushes are being chopped down,
stumps of trees are being destroyed,
large stakes are being driven in the
ground, and everybody has a business-
like appearance.

The people of Georgetown are much
interested in the work, and their hope
is that something will come of the la-
bor, which, from all indications, is
proving quite costly.

There are about five cots in each of
the four tents, which are occupied by
the men. There are two large wagons
which are used to move the camp when
necessary, and these are kept very
clean. This morning one of the color-
ed men working at the camp placed
both wagons in the creek, and cleaned
them as if they were ivory rigs. Ex-
cellent food is furnished the men in
the corps, all of which is purchased
in the country districts. There were
a dozen chickens waiting to be cooked
for the dinner today, while all the
vegetables of the season, direct from
the farm are provided. Such is life
among the corps of engineers.

Several citizens of Georgetown who
profess to have some direct informa-
tion bearing on the subject state that
the work of the engineers is the clos-
ing of a link of space for an electric
line from Cleveland to Pittsburgh, being
backed by Cleveland, Pittsburgh and
New York capital. The announce-
ment was also made that the western
portion of this road was already under
construction, but the projectors were
experiencing some difficulty in getting
into Pittsburgh.

It has been a known fact that for
some time the Wabash railroad repre-
sentatives have been talking electric
railway, and this may be one of its
projects. Practically all the property
along the Beaver creek has either been
optioned or purchased outright by sev-
eral companies which propose to con-
struct a railway up that valley, and it
is reasonable to believe that when the
right of way men make a canvass of
that territory, they will have some
difficulty in purchasing rights of way.

OHIO S. S. CONVENTION.

Meeting Adjourned at Findlay—Offi-
cers Chosen—Next Convention
at Portsmouth.

Findlay, O., June 6.—The Ohio
State Sunday School association
closed its forty-third annual con-
vention in this city last night. It was
the largest and most enthusiastic
convention ever held by the associa-
tion.

The following officers were elected
for the ensuing year: President, W.
A. Eudaly, Cincinnati; vice president,
J. G. Slayter, Akron; secretary, Rev.
Joseph Clark, D. D. Columbus; treas-
urer, N. D. Barrett, Springfield.
The next convention will be held
in Portsmouth, O., in June, 1903.

International Missionary Union.
Clifton Springs, N. Y., June 6.—
The opening session of the Interna-
tional Missionary union yesterday in-
cluded a devotional hour, in charge
of Dr. W. E. Witter, of Assam. The
Rev. J. T. Gracy, president, outlined
his plans for the coming sessions. A
business hour followed for the or-
ganization of committees that will
have charge of the coming sessions.

Big Sum For Theological School.
Newton, Mass., June 6.—Endow-
ments and bequests aggregating
nearly \$500,000 for the year for the
Newton Theological seminary were
announced yesterday. The gifts in-
cluded \$200,000 raised to receive an
equal sum from John D. Rockefeller.
Eighteen men were graduated yester-
day.

Reformed Church Synod.
Asbury Park, N. J., June 6.—The
business session of the general synod
of the Reformed church in America
yesterday was opened by the new
president, Dr. Abbott E. Kittredge.
At least a hundred delegates more
were in attendance than Thursday.

Washington, June 6.—The navy de-
partment will make a statement Sat-
urday as to the outcome of the court
of inquiry on board the Chicago at
Naples, but it is not expected that
the full proceedings of the court, no
even the text of the conclusions, will
be published.

It is understood that the court
found something to criticize in the
conduct of the officers who were ar-
rested, but Secretary Moody does not
agree with the conclusions on those
points, and consequently they will be
disapproved. Thus the outcome will
be a vindication in substance, and
there will be no further proceeding
in the nature of a court martial.

The European squadron will sail
before the end of the present week
from Italian waters for Lisbon en
route to England.

WELLSVILLE

A WELLSVILLE MAN

Who Complained of Ill-Treatment in the Lockup at Pittsburgh.

George Fetterman, of Wellsville, an old soldier who has been blind for 20 years, was locked up in central police station this week for playing a hand organ at Sixth street and Liberty avenue, Pittsburgh. Fetterman was a private in Company D, Forty-first regiment, Pennsylvania volunteers, during the civil war. At the second battle of Bull Run he was wounded in the head, from which cause he lost the sight of both eyes over 20 years ago. Since going blind he has lived on a pension of \$12 a month and what small amount he could get from the public while playing his organ on the pavements in various cities.

Some time ago Fetterman procured a license to play on the sidewalks of Pittsburgh, and he says that it was good until next October. At a hearing before Magistrate Bernard McKenna the morning after he was locked up, this license was taken from him and he was told either to stop playing on the sidewalks or leave the city. Fetterman says that when he was locked up he received nothing to eat for almost a day and that during his hearing the official made light of his blindness and poverty.

Supt. of Police John McAlcese says the statements made by Fetterman as to his treatment in the lockup are false.

RAISING THE BRIDGE

Contractor Bell Making Good Progress on His Task at Little Yellow Creek.

Contractor Bell, of Lisbon, who was employed by the county commissioners to raise the bridge over Little Yellow creek at the east end of Wellsville, has nearly completed the work.

On the west end of the bridge the work has been completed and all of the masonry work done. A few of the men are still at work on the east side of the structure, but will have that part finished in a few days.

The bridge will not be open to the public for at least two weeks, as the county is to put in a new floor and paint the structure white.

STREETS TO DIRTY

To Enable the Street Cleaners to Do a Good Job at the Start.

The new street sprinkler and sweeper were given a final test last evening by the Austin & Western company traveling salesman with the assistance of an additional man to operate the machines, which proved very satisfactory.

As it has been some time since the paved streets of the city were cleaned the machine with the brush used was not capable of cleaning any of the streets thoroughly the first time over, but as soon as the streets have been

thoroughly cleaned once it will be an easy matter to keep them clean.

Goes to the Adirondacks.

At a meeting of the board of trustees of the First M. E. church on Wednesday evening Rev. Dr. C. E. Clark was granted a leave of absence of one month's duration. This was granted because of the ill-health of Rev. Mr. Clark's wife. He left today in company with his wife and family for the Adirondacks, where he will remain for one month. A purse was tendered him by the board to help defray his expenses during the trip.

Shoe Firm Dissolved.

Taylor Black & Co., by mutual agreement, dissolved partnership yesterday. Mr. Taylor selling out his interest to Mr. Black, who, with his wife, will continue the business. Mr. Taylor is considering the acceptance of a position as a traveling salesman for a shoe firm. For six months this firm has conducted a large shoe business in the Wells block and has been very successful.

Presbyterian Committee to Meet at Winona, During Bible Conference.

TENT MEETINGS VARIOUS PLACES

Committee to Find Means For Them, With View of Reaching Non-Church Going People — Eminent Scotch Preacher to Attend Bible Conference

Warsaw, Ind., June 6.—Rev. J. Wilbur Chapman, secretary of the evangelistic committee, appointed by the Presbyterian general assembly at its recent session in New York, announced yesterday afternoon that the next meeting of the committee would be held at Winona during the National Bible conference, Aug. 17 to 27. All the Presbyterian pastors of the middle western states will receive invitations to be present.

The committee work is to find means of holding tent meetings in all parts of the United States, with a view to bringing non-church going people into membership if possible. John Converse, of New York, is chairman of the committee. Dr. Chapman received word yesterday that Rev. John Robertson, an eminent preacher of Scotland, will attend the Bible conference and take part in the program.

REV. DR. HILLIS PRESIDENT.

Chosen by Congregational Home Missionary Society—Debt Wiped Out.

Syracuse, N. Y., June 6.—After devotional services the Congregational Home Missionary society in national convention yesterday held a business meeting for reports and election of officers. The treasurer's report says the year began with a net debt of \$63,698, which has since been completely extinguished. The receipts from all sources were \$346,849; expenditures, \$293,063.

The auxiliary societies raised and expended in their own folds, during the year, \$255,612. Adding this to the total receipts of the national society gives a grand total of receipts for home missions for the year of \$602,462, and a grand total of expenditures of \$548,676.

The following officers were elected: President, the Rev. Newell Dwight Hillis, New York; vice presidents, E. Clark Ford, of Ohio; the Rev. Charles P. Brown, of California; Harry J. Hollister, of Michigan; the Rev. Michael Burnham, of Missouri; William D. Hyde (president of Bowdoin), of Maine; the Rev. Reuben Thomas, of Massachusetts; Justice David J. Brewer, of Washington; the Rev. Calvin McClelland, of Rhode Island; auditor, George S. Edgell, of New York; executive committee, to serve until 1907, the Rev. E. N. Packard, of Syracuse, N. Y.; the Rev. W. B. Holman, of Connecticut; the Rev. W. H. Wannamaker, of Pennsylvania.

GRADE CONTROVERSY

OCCUPIED THE ATTENTION OF CHESTER COUNCIL.

Action Deferred on Carolina avenue Improvement—Damage Suits Threatened.

When the reports of committees was called for last evening at the Chester council meeting Mr. Johnston, of the street committee, reported that the committee had met with Engineer Boyd last Saturday. Mr. Boyd gave a grade which was unsatisfactory to the committee.

The committee also viewed the county road on the east side of Rock Springs park, and reported that it was first class, and an improvement on the old road in the valley. The old road was accepted by council.

A proof of the advertisement of the Ohio Valley Street railway was filed at the meeting last evening which stated that the road is to be completed and in operation in eighteen months. The ordinance was read, but further action was deferred until the next regular meeting.

Mayor Shrader reported that several complaints had been made to him about the street railway crossings at Fourth and Fifth streets, and thought that some action should be taken by council, compelling the street railway people to open a crossing at these two points, suitable for teams to pass. On motion the street committee was instructed to notify the street railway to attend to the matter.

Mayor Shrader also reported complaints regarding the present grade established on Carolina avenue, between Third and Fourth streets.

Councilman Haugh, who resides between the two streets mentioned, objected to the present grade, but stated that his property was not so badly damaged as that of his neighbors whose cellars will undoubtedly be undermined, the grade being so low.

At this point Councilman Johnston remarked that he had always been turned down, the other councilmen maintaining that the grades established were not correct. "Now," said he, "you can fight the matter out among yourselves."

Many property owners said that they would ask the city for damages.

Mayor Shrader stated that some action should be taken to prevent the grade from damaging any one's property. Mr. Haugh then requested E. D. Marshall, a property owner on the street, to give his opinion, but he had nothing to say.

A motion was finally made by Mercer that the matter be left in the hands of the street committee for the present. The motion was carried.

E. D. Marshall warned the street committee to note that several property owners on Carolina avenue between Fourth and Fifth streets, had built their houses to conform with the present grade, and if the grade is raised they will also expect damages.

Councilman Mercer asked that Indiana avenue be opened from Second to Fourth streets and Pennsylvania avenue from Second to First street, as the streets are much needed, and teams cannot now pass through on it. After favorable opinions were heard from other councilmen and the street commissioner, the latter was ordered to commence the work at once. Council then adjourned.

REPUBLICAN PRIMARIES

Great Interest In the West Virginia Contest Which Comes Off Tomorrow.

The Republican primaries in Hancock county will take place tomorrow between 1 and 8 p. m., eastern standard time. The main contest is for congressman, Capt. Dovenor, of Wheeling and E. M. Showalter, of Marlinton county, being the candidates. Locally the interest centers in the county clerkship, Thomas Cochran, W. H. Beebout and A. S. Cooper being the candidates.

W. F. Brown and John E. Newell are the candidates for the legislature. The voting place at Chester is at the town hall.

Grade Not Satisfactory.

The street committee of Chester council met this morning at 8 o'clock to inspect the present grade on Carolina avenue between Third and Fourth streets, which is said to be about 18 inches too low, thus damaging property along that thoroughfare. It was decided by the committee that the present grade was not satisfactory and that a new one be established. This report will be given to council at the next meeting.

Attended Council Meeting.

W. H. Beebout, the probably successful candidate for the county clerkship, from New Cumberland, was in Chester last evening, and attended the meeting of the town council. Mr. Bee-

WHEELING AHEAD BY ONE SCORE

Both Teams Played a Lively and Very Interesting Game Yesterday.

THE FINISH WAS EXCITING

And But for Errors at Inopportune Times the East Liverpools Would Have Come Out Ahead—Five Runs By Visitors in First Inning.

Both teams played a pretty game yesterday, but the Wheeling boys played a little the prettiest and won by a score of 10 to 9. They not only got the most runs, but likewise the most errors.

The greatest trouble for the locals was making errors when they counted heavily for the visitors. Had they not lost their heads in the first inning there is no doubt that the game would have resulted far differently, and East Liverpool lovers of the game would have had the chance to boast that the local team had won from one of the strongest independent teams in the country.

It seems a shame to credit the loss of the game to Fred Heckathorn when one remembers that he is always in the game and is ever working with all his energy to win; but there is no getting out of it. He was responsible for the defeat. With two men on bases he let a ball go through his hands and allowed the visitors to score one. The ball was really a hard one to handle, but it was an error and it came at an inopportune time. The luck seemed to favor Wheeling only. Mahlin, their shortstop, made four of the rankest errors imaginable, but luck was with them.

The fact that the visitors were professionals brought a larger crowd than usual to the park, and when at different times in the game East Liverpool had a good chance for victory the fans went wild. The placing of a canvas at the top of the fence west of the grand stand had little effect upon the box car inhabitants. Somehow they succeeded in hypnotizing the train crew and thereby got the cars moved a short distance further down and so had the diamond in plain view. However, those who paid to get inside and who had been tormented for so many games by those perched on the hobo's home were spared that disturbance and the game was enjoyed.

Every inning was productive of excitement. At the beginning of the first inning the outcome looked a little dark for the locals, with five runs and four hits staring them in the face. But instead of giving up, they jumped into the game with all vigor and tried hard to land another scalp. Reark, the first man up, made the clouds brighten by pounding out a single, and although Berry flew out, the next man up played with the pitcher until rewarded with a short walk, and when J. Heckathorn came to the front with a clean hit the sun never shone brighter. It scored Reark and advanced Mock another base. The lone score was all that was landed, as Davis struck out and F. Heckathorn went out from pitcher to first.

The second inning was unprecedented for brevity, six men dying in that many minutes. Three struck out and the others went out to first without getting a ball out of the diamond.

Wheeling wanted to end the third as quickly, none of the team making a hit, but East Liverpool would not have it that way. The boys knew that the fans would be willing to sit a few minutes longer if rewarded by witnessing several men cross the plate. Two errors and one two-base hit were in their favor, and they swelled the total number of runs to 4.

Each scored one in the fourth with but a single feature, that being the blow given by Reark when he landed on the nose of the ball and sent it over in left field hunting for Grier, of the Windsor team. During the fifth and sixth the scorer was kept busy tabulating runs for the visitors, but they quit at that, and made nothing through the remainder of the contest.

Until the eighth the locals were lenient. They did not seem to be anxious, but when Fred Heckathorn hobbled to the batters' box and dropped one between the railings on the nearby hillside, enthusiasm was again aroused. At the end four hits and three runs had been received.

The last half of the ninth started off in a manner most commendable. With the score 10 to 8 East Liverpool was impressed with the fact that if it did anything it was then or never. The effort put forth was all that could be asked. J. Heckathorn bunched against one for three bases and finally scored. The next three men up tried to mimic him, but failed, and the game was over, but not until the professionals

were at least aware that they had been up against a team not far from their equal.

Berry and Mock, from Canton, who played second and short, respectively, for the locals, left the field with records of which they can be justly proud. Neither made an error, and both were there in all of the requirements. They are ex-members of the Wheeling team, and the question that is bothering the fans is why doesn't Wheeling sign them again?

The Heckathorn brothers were in it as usual and the errors made by them are forgotten.

As announced exclusively in yesterday's issue of the News Review, the Wheeling boys could not play on the local grounds today, owing to having a date with Baltimore; but they will return tomorrow and the greatest game of the season is anticipated.

RIVERVIEW CEMETERY

BUSINESS OF THE PAST YEAR REVIEWED AT LENGTH.

Total Interments For the Year 244—
Collections Amounted to \$11,746.

The annual meeting of the River-view Cemetery association was held this week, when the annual reports of the various officers were presented, and the business of the past year reviewed. The meeting was held in the offices of the First National bank, all the members of the association being present.

The past year the association granted permits for the interment of 244 persons, making a total up to the present time of 2,002 interments that have been made in the cemetery since the association began business. The report of the treasurer, N. G. Macrum, showed that during the year the association had collected \$11,746.83, while the expenditures were \$11,261.75, leaving a cash balance of \$485.08 on hand. There was added to the cemetery during the year 17½ acres, making the total area of the ground at present 90.65 acres, the total cost of which has been \$20,756.50.

The latest addition to the cemetery cost in the neighborhood of \$5,000, all of which has been paid.

John W. Vodrey was elected a member of the official board to fill the vacancy, caused by the death of J. N. Vodrey.

The following were elected to serve as directors for a term of three years, the term expiring in 1905: Noah A. Frederick, F. D. Kitchell, W. A. Harker, Christian Metch and J. M. Kelly. The old officers were re-elected—president, Hon. David Boyce; treasurer, N. G. Macrum; secretary, J. M. Kelly; sexton, M. Whitaker. The executive committee is composed of Hon. David Boyce, Col. John N. Taylor, Robert Hall, John C. Thompson and J. M. Kelly.

For sometime the association has been considering the plan of paving the main road leading into the cemetery proper, and this was one of the important matters that was considered at the meeting. However, this has been placed under the direction of the executive committee, and it is possible that some definite action will be taken on this matter in a very short time.

POSTOFFICE ROBBERS

Burglar Jim And His Pal Indicted at Columbus on Numerous Counts.

Columbus, June 6.—"Burglar Jim" Anderson, probably the most noted postoffice robber in the United States, is held in the county jail to answer to seven indictments, returned last evening by the grand jury of the United States court. Anderson, with his pal, Herbert Robey, is accused of having robbed nearly 25 postoffices in the central part of Ohio within the past nine months. He was caught after a long chase at Johnstown, Pa., and returned to this state without the formality of a requisition. Robey was arrested in Columbiana county, near Moultrie, Julius Bernstein, a pawnbroker of this city, was held to answer to 23 indictments for having disposed of the stamps which Anderson and Robey are alleged to have stolen.

The grand jury also returned an indictment against Russell Jimison, a mail carrier of Steubenville, who was charged with delaying mail and abstracting money from letters.

A BASEBALL GAME

Between West End And Beaver Falls Teams at the K. G. E. Picnic.

One of the pleasing features scheduled for the K. G. E. picnic, which is to be held at Rock Springs park tomorrow, is the ball game. The West End Athletic club, of this city, will cross bats with the C. L. A. C., of Beaver Falls. They are evenly matched and an interesting contest is assured.

The lineup follows:

W. E. A. C.—Coleman, short; Myler, left; Tyson, first; Gibson, third; Davis, catcher; W. Carey, second; Bennett, right; E. Carey, middle; Chellis, pitcher; Daley, sub.

C. L. A. C.—McAnlis, short; Brown, second; Mullen, third; Croft, middle; Harvey, left; Merriman, right; McStory, catcher; Supplee, pitcher; Gremming, first; Davis, sub.

MORE BUSINESS IN STOCKS.

Larger Trade Thursday Than Any Day in the Week—Some Market Features.

New York, June 6.—There was more business in stocks yesterday than on any day of the week. The increased activity was a result of additional pressure to sell. The disposition to sell was not confined to any one portion of the list and was quite evenly distributed among the usually prominent stocks. The selling was not urgent, but was persistent, and gained a volume towards the latter part of the day. Probably the most effective single factor in the weakness

of the market was a general feeling of anxiety over the developments in the labor world.

The reports of continued heavy orders for all grades of iron products for delivery far into the future did not avail to relieve the heaviness of the United States Steel stocks and other iron and steel stocks. The selling of the grangers seemed to be due, to some extent to reports of too abundant rains in the southwest, and also to the falling back in the figures of receipts of corn. The late reaction in the grain markets after early strength did not change the weak tone of the grangers. Chicago and Northwestern was marked up 2 points on the announcement of the long heralded extra dividend on the stock but half of the gain was lost. Hocking Valley reflected disappointment over the declaration of only the former dividend rate. The large profit taking in Canadian Pacific at a total reaction of 4 points had a sympathetic effect on the whole list. Amalgamated Copper was depressed by the weakness of the market for raw copper and was not affected by a circular pointing out great improvement in the trade. The combined effect of various items of depression was a dribble of realizing all day which carried prices downward until the close, which was easy at the lowest.

QUAY FOR STATE CHAIRMAN.

Wants It If Pennypacker Is Nominated—Reader Wants It if Elkin Is Named.

Harrisburg, Pa., June 6.—Hotels and public buildings all over the city were being decorated for the Republican state convention to be held in the Grand opera house next Wednesday for the nomination of candidates for governor, lieutenant governor and secretary of internal affairs. By reason of the spirited contest for governor between Judge Pennypacker, of Philadelphia; Attorney General Elkin, of Indiana, and ex-Lieutenant Governor Watres, of Scranton, the indications are that the attendance will be unusually large.

Headquarters have already been opened by the Pennypacker and Elkin managers, and it is expected that Colonel Watres will be here on Monday to take personal direction of his forces. Judge Pennypacker's interests will be in charge of United States Senators Quay and Penrose and Insurance Commissioner Durham, of Philadelphia. General Elkin will direct his own campaign, with the aid of Secretary of the Commonwealth Griest and other members of the state administration.

The state committee will meet on Tuesday to make up the roll of delegates and select the temporary officers of the state convention.

Senator Quay will be a candidate for state chairman if Pennypacker is nominated. Should Elkin be the nominee Bank Commissioner Reeder will again be a candidate for chairman. All of the party leaders and many of the delegates will be on the ground by Monday.

ARE YOUR NERVES SHATTERED?

Are you on the brink of nervous prostration? Are your nerves all unstrung? Do you feel a general breaking down? It's no wonder! We Americans hustle too hard, we work too much and too long, we tax our nerve power to its greatest capacity. Nerves are not iron! They must give way under the great strain. Have yours not already done so? You can tell if yours have by those sleepless, restless nights you have, by those constant headaches you have and by your failing appetite. At 5:15 a meeting of the general committeemen of all the castles represented at the outing will be held at the park for the purpose of deciding when the next year's reunion will be held.

In the evening at 8 o'clock there will be a gorgeous display of fire works, costing several thousand dollars. This will be in charge of Fazzoni Brothers, of New Castle, who have been at the park for several days making the necessary preparations for this event. The affair will last for several hours, and will be the largest display of pyrotechnics ever seen in this section.

One hundred dozen of souvenirs have been secured by the local committee which will be sold at the park to the visitors. They are very handsome. During the afternoon the music in the pavilion will be in charge of Prof. Nowling, while during the afternoon and evening on the lawn there will be several concerts by local bands.

The time of the departure of the trains on the C. & P. road as given officially is as follows, East Liverpool time being used:

Bellaire and Steubenville, 8 o'clock; Allegheny, 9 o'clock; Salineville, 9:30 o'clock; East Palestine, 10:30; New Castle, 11:30; Cleveland, 12 o'clock. On the Panhandle branch the Greensburg train will leave at about 8 o'clock, East Liverpool time.

ISN'T it enough to equal the custom tailor's productions at half the custom tailor's prices? and such clothes as are produced by the Stein-Bloch Co., Garson-Meyer, etc., surpass much of the so called made to order clothes and equal the best custom work. There have great been strides lately in the manufacture of fine clothes, and extensive buying and extensive selling furnish us price advantages.

ROBINSON'S BIG SHOW

It Has Had a Reputation For 70 Years and is Always Up-to-Date.

John Robinson's ten united shows will exhibit at East Liverpool Tuesday, June 10.

For more than 70 years the Robinson show has had the reputation of being the very best of tented amusement institutions and again history repeats itself. All the champion riders, both male and female, the highest salaried aerialists, gymnasts and acrobats, the funniest clowns, the largest and finest collection of wild beasts, the finest of performing elephants and hundreds

of other features. The distinguishing feature of the show is the great spectacular production of King Solomon and the Queen of Sheba with its one hundred principals and a ballet of 50 girls. All the scenery, costumes and effects of this grand imposing spectacle are new this season.

HEALTH BOARD MEETING

Tonight's Session Will Be Largely Devoted to Recommending New Sewers.

The meeting of the board of health called for this evening will be devoted largely to determining where sewers should be laid and to taking the necessary steps to have the work done. The board has under advisement the recommendation to council of sewers as follows: Thompson avenue, from Ravine street to the old reservoir; West Market street from the Diamond to the Horn switch; the extension from Monroe street to the Sixth street school; Green lane which was condemned by the board five years ago; Oak street and Church street.

Nothing more than the recommendation can be done by the board, although it would be still to take the responsibility and push the work speedily. It is understood that the board, sewer commission and the councilmen are in favor of the improvements, but are powerless to act until a petition is signed and presented by property owners. From a sanitary standpoint the sewers are an absolute necessity.
